Reinvention Made Easy Jim Mathis,2011-12-01 The new world of work requires tough love and tough questions to ask yourself Choose reinvention over extinction by facing hard business truths Self reinvention is easy Everybody can reinvent themselves in a challenging economy by incorporating the simple indisputable truths in Reinvention Made Easy But even the most creative leaders will find this a personally challenging and value changing read The economy doesn't go up or down it becomes different The realities of your business have changed forever Leaders manage the way they react to change The next year is probably the end of the way we will do business Your business purpose is not determined by you but by the needs or wants that are satisfied when the customer buys a product or service Effective market leaders see themselves from the customer's viewpoint To reinvent yourself you must answer these questions raised in Reinvention Made Easy When will the recession end Why don't people buy what I sell Why does my team hate me Why doesn't my teamwork always work How am I punishing my customers What is costing me more money than making me The answers are so uncomfortable you will be forced to think your way to very last page

William Wilde and the Necrosed Davis Ashura,2018-02-17 From the bestselling author of Instrument of Omens and the Castes and the OutCastes comes a tale of outsiders who never wanted to be heroes And yet that is the price to pay for those destined to master the magic in their veins At seventeen years old William Wilde was orphaned because of the magic in his veins magic he doesn't know is real Eight months later Serena Paradiso enters his life Captivating and confident she holds secrets about William's heritage His friends know them too All of them watch William study him wondering if he is the one

for whom they've been searching. But none of them know of Kohl Obsidian, an undead horror who also hunts for William Kohl. Kohl seeks to devour William's magic and will kill any who stand in his way. The 80s have never been so deadly. *Book Wars* John B. Thompson, 2021-03-04. This book tells the story of the turbulent decades when the book publishing industry collided with the great technological revolution of our time. From the surge of ebooks to the self-publishing explosion and the growing popularity of audiobooks, *Book Wars* provides a comprehensive and fine-grained account of technological disruption in one of our most important and successful creative industries. Like other sectors, publishing has been thrown into disarray by the digital revolution. The foundation on which this industry had been based for 500 years, the packaging and sale of words and images in the form of printed books, was called into question by a technological revolution that enabled symbolic content to be stored, manipulated, and transmitted quickly and cheaply. Publishers and retailers found themselves facing a proliferation of new players who were offering new products and services and challenging some of their most deeply held principles and beliefs. The old industry was suddenly thrust into the limelight as bitter conflicts erupted between publishers and new entrants, including powerful new tech giants who saw the world in very different ways. The book wars had begun. While ebooks were at the heart of many of these conflicts, Thompson argues that the most fundamental consequences lie elsewhere. The print-on-paper book has proven to be a remarkably resilient cultural form, but the digital revolution has transformed the industry in other ways, spawning new players which now wield unprecedented power and giving rise to an array of new publishing forms. Most important of all, it has transformed the broader information and communication environment, creating new challenges and new opportunities for publishers as they seek to redefine their role in the digital age. This unrivalled account of the book publishing industry as it faces its greatest challenge since Gutenberg will be essential reading for anyone interested in books and their future.
