implementation A Close Look at Close Reading Barbara Moss,Diane Lapp,Maria Grant,Kelly Johnson,2015-05-21 The Common Core State Standards have put close reading in the spotlight as never before While middle and high school teachers want and need students to connect with analyze and learn from both literary and informational texts many are unsure how to foster the skills students must have in order to develop deep and nuanced understanding of complicated content Is there a process to follow How is close reading different from shared reading and other common literacy practices How do you prepare students to have their ability to analyze complex texts measured by high stakes assessments And how do you fit close reading instruction and experiences into an already crowded curriculum Text complexity and how to determine if a particular text is right for your learning purposes and your students The process and purpose of close reading with an emphasis on its role in developing the 21st century thinking speaking and writing skills essential for academic communication and college and career readiness How to plan teach and manage close reading sessions across the academic disciplines including the kinds of questions to ask texts to use and supports to provide How to assess close reading and help all students regardless of linguistic cultural or academic background connect deeply with what they read and derive meaning from complex texts Equipping students with the tools and process of close reading sets them on the road to becoming analytical and critical thinkers and empowered and independent learners In this comprehensive resource you ll find everything you need to start their journey Readers Front and Center Dorothy Barnhouse,2023-10-10 Every teacher wants and expects his or her students to be reading increasingly complex texts yet sometimes the gap between our expectations and our students abilities seems wide and deep It s tempting to look at that gap and step in to fill it for them but then we d be doing most of the heavy lifting the understanding analysis and interpretation that our students should be learning for themselves So how can teachers reverse this trend and ensure that our students are fully entering absorbing and experiencing texts How can we make sure they re making complex meaning independently and proficiently as the Common Core State Standards require Readers Front and why we need to put students at the front and center of our teaching **English Language Arts, Grade 6 Module 3** PCG Education,2015-12-09 Paths to College and Career Jossey Bass and PCG Education are proud to bring the Paths to College and Career English Language Arts ELA curriculum and professional development resources for grades 6 12 to educators across the country Originally developed for EngageNY and written with a focus on the shifts in instructional practice and student experiences the standards require Paths to College and Career includes daily lesson plans guiding questions recommended texts scaffolding strategies and other classroom resources Paths to College and Career is a concrete and practical ELA instructional program that engages students with compelling and complex texts At each grade level Paths to College and Career delivers a yearlong curriculum that develops all students ability to read closely and engage in text based discussions build evidence based claims and arguments conduct research and write from sources and expand their academic vocabulary Paths to College and Career s instructional resources address the needs of all learners including
