Buddha and Christ Thundy, 2018-09-24 The infancy narratives of the gospels of Matthew and Luke appear as a magnificent mosaic of allusions not only to the Hebrew Bible but also to Buddhist and Hindu religious traditions Professor Thundy argues that many details of the infancy gospels as well as the rest of the gospels can be clarified by the Buddhist and Hindu scriptures In this sense the gospels are Eastern religious texts Buddha and Christ covers the following topics in order methodology of study priority of Indian texts vis vis Christian gospels parallels of the birth narratives of Buddha and Jesus uniqueness of Indian parallels the Gnostic context of the Christian gospels and contacts between India and the West in antiquity Multicultural studies such as this encourage ecumenism and mutual understanding in East West dialogues as well as reinforcing the view that the gospels should be taken seriously as Eastern religious texts

Postponement in Perpetuality: the Buddha's Prophecy of the End of Buddhism and Its Transmission in East Asia Yi Liu, 2025-03-27 The Buddha prophesied that his teachings would vanish a few hundred years after his passing creating an existential dilemma for Chinese Buddhists on the brink of Buddhism's disappearance This book examines the origins of this prophecy and the famed end of Buddhism belief in Indian and Central Asian Buddhism and the centuries long struggle of Chinese Buddhists to interpret and adapt this prophecy This resulted in the unique East Asian Buddhist belief of mofa the final age of Buddhism which profoundly influenced medieval China and Japan

The Buddha's Footprint Johan Elverskog, 2020-01-24 A corrective to the contemporary idea that Buddhism has always been an environmentally friendly religion In the current popular imagination Buddhism is often understood to be a religion intrinsically concerned with the environment The Dharma the name given to Buddhist teachings by Buddhists states that all things are interconnected Therefore Buddhists are perceived as extending compassion beyond people and animals to include plants and the earth itself out of a concern for the total living environment In The Buddha's Footprint Johan Elverskog contends that only by jettisoning this contemporary image of Buddhism as a purely ascetic and apolitical tradition of contemplation can we see the true nature of the Dharma According to Elverskog Buddhism is in fact an expansive religious and political system premised on generating wealth through the exploitation of natural resources Elverskog surveys the expansion of Buddhism across Asia in the period between 500 BCE and 1500 CE when Buddhist institutions were built from Iran and Azerbaijan in the west to Kazakhstan and Siberia in the north Japan in the east and Sri Lanka and Indonesia in the south He examines the prosperity theology at the heart of the Dharma that declared riches to be a sign of good karma and the means by which spiritual status could be elevated through donations bequeathed to Buddhist institutions He demonstrates how this scriptural tradition propelled Buddhists to seek wealth and power across Asia and to exploit both the people and the environment Elverskog shows the ways in which Buddhist expansion not only entailed the displacement of local gods and myths with those of the Dharma as was the case with Christianity and Islam but also involved fundamentally transforming earlier social and political structures and networks of economic exchange The Buddha's Footprint argues that the institutionalization of the Dharma was intimately connected to agricultural expansion resource extraction deforestation urbanization and the monumentalization of Buddhism itself
