Buildings Across Time Introduction Architecture:

ISE Buildings Across Time: an Introduction to World Architecture Michael Fazio, Marian Moffett, Lawrence Wodehouse, 2022-03 **Buildings Across Time** Marian Moffett, Michael W. Fazio, Lawrence Wodehouse, 2004 The text encourages readers to examine closely in photographs and line drawings the pragmatic innovative and aesthetic attributes of buildings and to imagine how these would have been praised or criticized by contemporary observers Architecture is discussed in various contexts artistic economic environmental political social and technological so as to determine the extent to which buildings met the needs of clients society at large and future generations This book also examines the unique methods of great architects past and present Among them are Alvar Aalto Robert Adam Leon Battista Alberti Filippo Brunelleschi Gustave Eiffel Peter Eisenman Antonio Gaudi Frank Gehry Walter Gropius Imhotep Le Corbusier Charles Rennie Mackintosh Michelangelo Glenn Murcutt Andrea Palladio Eero Saarinen Koca Sinan Louis Sullivan Christopher Wren and Frank Lloyd Wright BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

Mathematical Excursions to the World's Great Buildings Alexander Hahn, 2012-07-22 Describes the mathematics behind the design of famous buildings including the Parthenon the Sydney Opera House and the Bilbao Guggenheim **The Architecture of Modern American Synagogues, 1950s-1960s** Anat Geva, 2023-12-14 In the aftermath of World War II the United States experienced a rapid expansion of church and synagogue construction as part of a larger religious boom The synagogues built in that era illustrate how their designs pushed the envelope in aesthetics and construction The design of the synagogues departed from traditional concepts embraced modernism and innovations in building technology and evolved beyond the formal rational style of early 1950s modern architecture to more of an expressionistic design The latter resulted in abstraction of architectural forms and details and the inclusion of Jewish art in the new synagogues The Architecture of Modern American Synagogues 1950s 1960s introduces an architectural analysis of selected modern American synagogues and reveals how they express American Jewry's resilience in continuing their physical and spiritual identity while embracing modernism American values and landscape In addition the book contributes to the discourse on preserving the recent past e.g. mid 20th century architecture While most of the investigations on that topic deal with the brick mortar challenges this book introduces preservation issues as a function of changes in demographics in faith rituals in building codes and in energy conservation As an introduction or a reexamination The Architecture of Modern American Synagogues 1950s 1960s offers a fresh perspective on an important moment in American Jewish society and culture as reflected in their houses of worship and adds to the literature on modern American sacred architecture The book may appeal to Jewish congregations architects preservationists scholars and students in fields of studies such as architectural design sacred architecture American modern architecture and building technology Post WWII religious and Jewish studies and preservation and conservation *World Architecture and Society* Peter Louis Bonfitto, 2021-12-06 This two volume encyclopedia covers buildings and sites of global

significance from prehistoric times to the present day providing students with an essential understanding of architectural development and its impact on human societies This two volume encyclopedia provides an in depth look at buildings and sites of global significance throughout history The volumes are separated into four regional sections 1 the Americas 2 Europe 3 Africa and the Middle East and 4 Asia and the Pacific Four regional essays investigate the broader stylistic and historical contexts that describe the development of architecture through time and across the globe Entries explore the unique importance of buildings and sites including the megalithic wonder of Stonehenge and the imposing complex of Angkor Wat Entries on Spanish colonial missions in the Americas and the medieval Islamic universities of the Sahara connect to broader building traditions Other entries highlight remarkable stories of architectural achievement and memory like those of Tuskegee University a site hand built by former slaves or the Hiroshima Peace Memorial Park which was built at the site of the atomic detonation Each entry focuses on the architectural but includes strong consideration of the social impact importance and significance each structure has had in the past and in the present *Almanac of Architecture & Design* 2006 James P. Cramer, Jennifer Evans Yankopolus, 2005-11 Encyclopedia of Global Studies Helmut K. Anheier, Mark Juergensmeyer, 2012-03-09 With all entries followed by cross references and further reading lists this current resource is ideal for high school and college students looking for connecting ideas and additional sources on them The work brings together the many facets of global studies into a solid reference tool and will help those developing and articulating an ideological perspective Library Journal The Encyclopedia of Global Studies is the reference work for the emerging field of global studies It covers both transnational topics and intellectual approaches to the study of global themes including the globalization of economies and technologies the diaspora of cultures and dispersion of peoples the transnational aspects of social and political change the global impact of environmental technological and health changes and the organizations and issues related to global civil society Key Themes Global civil society Global communications transportation technology Global conflict and security Global culture media Global demographic change Global economic issues Global environmental and energy issues Global governance and world order Global health and nutrition Global historical antecedents Global justice and legal issues Global religions beliefs ideologies Global studies Identities in global society Readership Students and academics in the fields of politics and international relations international business geography and environmental studies sociology and cultural studies and health The Built Environment Wendy R. McClure, Tom J. Bartuska, 2011-09-09 This book takes a sweeping view of the ways we build things beginning at the scale of products and interiors to that of regions and global systems In doing so it answers questions on how we effect and are affected by our environment and explores how components of what we make from products buildings and cities are interrelated and why designers and planners must consider these connections **Studyguide for Buildings Across Time** Cram101 Textbook Reviews, Michael W.
