Buddhist Peacework Creating Cultures Of Peace:

Buddhist Peacework David W. Chappell, 2000-05-01 Buddhism is famous for bringing inner peace but what about social harmony human rights and environmental balance We have a responsibility today to work directly with our own suffering and the suffering in our communities the world and the environment Buddhist Peacework collects for the first time in one place first person descriptions of the ideas and work of eminent Buddhist leaders such as the Dalai Lama Thich Nhat Hanh Maha Ghosananda A T Ariyaratne Daisaku Ikeda Shih Cheng yen Sulak Sivaraksa and Robert Aitken These 18 essays are divided into three sections that explore the newest Buddhist social developments the principles that guide Buddhist peacework and the importance of ongoing inner peacework in developing a sense of kinship with all people **Being Benevolence** Sallie B. King, 2005-06-30 Engaged Buddhism is the contemporary movement of nonviolent social and political activism found throughout the Buddhist world Its ethical theory sees the world in terms of cause and effect a view that discourages its practitioners from becoming adversaries blaming or condemning the other Its leaders make some of the most important contributions in the Buddhist world to thinking about issues in political theory human rights nonviolence and social justice Being Benevolence provides for the first time a rich overview of the main ideas and arguments of prominent Engaged Buddhist thinkers and activists on a variety of questions What kind of political system should modern Asian states have What are the pros and cons of Western liberalism Can Buddhism support the idea of human rights Can there ever be a nonviolent nation state It identifies the roots of Engaged Buddhist social ethics in such traditional Buddhist concepts and practices as interdependence compassion and meditation and shows how these are applied to particular social and political issues It illuminates the movement s metaphysical views on the individual and society and goes on to examine how Engaged Buddhists respond to fundamental questions in political theory concerning the proper balance between the individual and society The second half of the volume focuses on applied social political issues human rights nonviolence and social justice **The Encyclopedia of Peace Psychology**, 2011-12-12 The Encyclopedia of Peace Psychology available online through Wiley Online Library or as a three volume print set is a state of the art resource featuring almost 300 entries contributed by leading international scholars that examine the psychological dimensions of peace and conflict studies First reference work to focus exclusively on psychological analyses and perspectives on peace and conflict Cross disciplinary linking psychology to other social science disciplines Includes nearly 300 entries written and edited by leading scholars in the field from around the world Examines key concepts theories methods issues and practices that are defining this growing field in the 21st century Includes timely topics such as genocide hate crimes torture terrorism racism child abuse and more A valuable reference for psychologists and scholars students and practitioners in peace and conflict studies An ALA 2013 Outstanding Reference Source *Psychology and Buddhism* Kathleen H. Dockett, G. Rita Dudley-Grant, C. Peter Bankart, 2006-05-02 This book advances a serious consideration of how the goals and practices of psychology can be informed and enriched by Buddhist

traditions that transcend the individual to consider the interconnectedness of all things and the responsibility we have towards the other Individualistic and psychotherapeutic applications of Buddhism in psychology are examined followed by a bold step into the community arena with consideration given to the intersection between community psychology and Buddhist approaches to empowerment social change and prevention Radical Human Ecology Rose Roberts, 2016-04-08 Human ecology the study and practice of relationships between the natural and the social environment has gained prominence as scholars seek more effectively to engage with pressing global concerns In the past seventy years most human ecology has skirted the fringes of geography sociology and biology This volume pioneers radical new directions In particular it explores the power of indigenous and traditional peoples epistemologies both to critique and to complement insights from modernity and postmodernity Aimed at an international readership its contributors show that an inter cultural and transdisciplinary approach is required The demands of our era require a scholarship of ontological depth an approach that can not just debate issues but also address questions of practice and meaning Organized into three sections Head Heart and Hand this volume covers the following key research areas Theories of Human Ecology Indigenous and Wisdom Traditions Eco spiritual Epistemologies and Ontology Research practice in Human Ecology The researcher researched relationship Research priorities for a holistic world With the study of human ecology becoming increasingly imperative this comprehensive volume will be a valuable addition for classroom use Mindful leadership for sustainable peace Thich Duc Thien, Thich Nhat Tu, 2019-04-16 EDITORS INTRODUCTION BACKGROUND We are experiencing an unprecedented period where wide ranging and disruptive major global change is taking place around us In this context the theme of Mindful Leadership and Sustainable Development provides a point of reference and pathway for understanding the contemporary chaotic situations These disruptive changes challenge our understanding and meaning of humanity and truly question whether or not we are able to live in a society where justice equality peace and prosperity abound In the Buddhist light a focus is placed on understanding the Buddhist teachings to develop solutions for dealing with these wide ranging problems Both the scope of change and the response from a Buddhist approach are core to the content of this volume It is of paramount importance that any investigation and development of solutions for the changes taking place require guidance from the Buddhist philosophy As a starting point for discussion an initial focus is placed on providing a thorough and critical understanding of the character and context of change In doing so we also seek to clarify and outline the nature of a Buddhist approach In completing this review it is productive to see that given the complex issues being dealt with the papers do generate different frameworks and viewpoints within the broad term of approach The frameworks based on the Buddha s teachings are not fully fixed and agreed upon by all Therefore our term approach refers to a set of arrangements and viewpoints that act to inspire further discussion and development Given the above context this volume is a collection of conference papers presented and published for the panel on the first sub theme of UNDV 2019 on Mindful Leadership for Sustainable Peace on 13 May 2019 at

the Tam Chuc International Convention Center Ha Nam Vietnam The panel commemorates the occasion of the 16th United Nations Day of Vesak Celebrations 2019 Through the contributions of participants and their papers at this workshop this volume provides a diverse and rich range of thinking and wisdom rather than more traditional mainstream thinking or conventional wisdom Treating the Buddha's teachings as a basic theoretical reconstruction we examine the relationships between societies and Buddhism We combine the analyses of the conflicts trends and dynamics affecting future global development with focused studies on a range of policy areas for improving societies In the Buddhist light our two most crucial aims in this period of disruption are to greatly increase the influence and impact of Buddhism as our foremost duty and that the Buddhist responsibility contributes to creating a new foundation for Mindful Leadership and Sustainable Development

The New Social Face of Buddhism Ken Jones, 2003-06-15 For Jones the establishment of a definitive relationship between individual and society is central to the development of both engaged Buddhism and sociology Here he tells readers how to bridge their spiritual practice to social action *The Oxford Handbook of Buddhist Ethics* Daniel Cozort, James Mark Shields, 2018 A comprehensive overview of the study of Buddhist ethics in the twenty first century

Conflict, Culture, Change Sulak Sivaraksa, 2015-04-07 From Nobel Peace Prize nominee Sulak Sivaraksa comes this look at Buddhism's innate ability to help change life on the global scale Conflict Culture Change explores the cultural and environmental impacts of consumerism nonviolence and compassion giving special attention to the integration of mindfulness and social activism the use of Buddhist ethics to confront structural violence and globalization's threat to traditional identity
