Buehler,2016-08-31 Sufism is all too often associated just with mysticism in the West The author of this new textbook a former pupil of Annemarie Schimmel suggests that conflating Sufism and mysticism is only partially valid He shows that the vast majority of Sufi practice both historically and in the contemporary world has little or nothing to do with a esoteric transcendence but is rather focused on contemplative activity Such practice might involve art music devotional shrine visitation even politics and psychology Placing Sufism in a wider Islamic contemplative context enables Arthur F Buehler to examine Sufi history as well as current application against a backdrop that is richer and more inclusive than that portrayed in many competing introductory surveys Discussing the origins of Sufism the development of Sufi lineages via three founder figures Sufi lodges and the role of Sufism in colonial resistance Sufi poetry Sufi shrines and Sufism in the West the author rescues his topic from the idea that it means only union with the divine In this original new treatment Sufism emerges as complex and multi layered *Uncanny X-Men Masterworks Vol. 13* Chris Claremont,2021-06-23 Collects Uncanny X Men 1981 201 209 Longshot 1985 1 6 material from Marvel Fanfare 1982 33 Chris Claremont and John Romita Jr are joined by a host of all star illustrators for
