Aplia's online learning solution makes statistics relevant and engaging to students with interactive, automatically graded assignments. As students answer each question, they receive instant, detailed feedback—and their grades are automatically recorded in your Aplia gradebook.

Problem Sets

Students stay engaged in their coursework by regularly completing interactive problem sets. Aplia offers original, auto-graded problems—each question providing instant, detailed feedback.

Math & Graphing Tutorials

Interactive tutorials help students overcome mathematical challenges that would otherwise prevent them from learning statistics. Tutorials cover prerequisite math fundamentals, such as graphing, numerical calculations, and equations. By assigning these tutorials, you no longer need to spend valuable class time reviewing these subjects.

Assessment & Grading

Aplia keeps you informed about student participation, progress, and performance through real-time graphical reports. You can easily download, save, manipulate, print, and import student grades into your current grading program.

Course Management System

You can post announcements, upload course materials, e-mail students, and manage your gradebook in Aplia's easy-to-use course management system. Aplia works independently or in conjunction with other course management systems.

Aplia For Mind On Statistics:

Mind on Statistics Jessica M. Utts, Robert F. Heckard, 2011-01-07 MIND ON STATISTICS emphasizes the conceptual development of statistical ideas and the importance of looking for and finding meaning in data. Authors Jessica Utts and Robert Heckard actively engage students' natural curiosity, motivating them with intriguing questions and explaining statistical topics in the context of a wide range of interesting, useful examples and case studies. Throughout, the authors balance the promotion of statistical literacy with coverage of the statistical methodology taught in general introductory statistics courses. Their approach is based on the premises that new material is much easier to learn and remember if it is related to something interesting or previously known and if students actively ask questions and find the answers for themselves. More than any other text available, MIND ON STATISTICS motivates and encourages students to develop their statistical intuition by focusing on analyzing data and interpreting results rather than on mathematical formulation. Handbook of Research on Strategic Management of Interaction, Presence, and Participation in Online Courses Kyei-Blankson, Lydia, 2015-11-05 Online learning has become a prominent and inseparable component of higher education in recent years. Questions related to course structure, levels of interaction, presence, and participation within online courses persist and invite further inquiry for determining factors that encourage effective teaching and learning in online environments. The Handbook of Research on Strategic Management of Interaction, Presence, and Participation in Online Courses explores models of course development and delivery techniques to improve instruction, learning, and student satisfaction in online courses. Covering topics such as rates of participation, student engagement, and retention, and social development, this handbook serves as a resource for educators in online learning environments as well as for course designers and developers of online courses and researchers whose agenda includes examining interaction, presence, and participation in online courses.

Blended Learning: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources, 2016-08-18 Traditional classroom learning environments are quickly becoming a thing of the past as research continues to support the integration of learning outside of a structured school environment. Blended learning, in particular, offers the best of both worlds, combining classroom learning with mobile and web-based learning environments. Blended Learning: Concepts, Methodologies, Tools, and Applications explores emerging trends, case studies, and digital tools for hybrid learning in modern educational settings. Focusing on the latest technological innovations as well as effective pedagogical practice, this critical multi-volume set is a comprehensive resource for instructional designers, educators, administrators, and graduate-level students in the field of education.

Teaching Economics William E. Becker, Suzanne R. Becker, Michael W. Watts, 2006-01-25 Teaching Economics is an invaluable and practical tool for teachers of economics, administrators responsible for undergraduate instruction, and graduate students who are just beginning to teach. Each

chapter includes specific teaching tips for classroom implementation and summary lists of do's and don'ts for instructors who are thinking of moving beyond the lecture method of traditional chalk and talk

BOOK JACKET *Exploring More Signature Pedagogies* Nancy L. Chick, Aeron Haynie, Regan A. R. Gurung, 2023-07-03 What is distinctive about the ways specific disciplines are traditionally taught and what kinds of learning do they promote Do they inspire the habits of the discipline itself or do they inadvertently contradict or ignore those disciplines By analyzing assumptions about often unexamined teaching practices their history and relevance in contemporary learning contexts this book offers teachers a fresh way to both think about their impact on students and explore more effective ways to engage students in authentic habits and practices This companion volume to *Exploring Signature Pedagogies* covers disciplines not addressed in the earlier volume and further expands the scope of inquiry by interrogating the teaching methods in interdisciplinary fields and a number of professions critically returning to Lee S Shulman's origins of the concept of signature pedagogies This volume also differs from the first by including authors from across the United States as well as Ireland and Australia The first section examines the signature pedagogies in the humanities and fine arts fields of philosophy foreign language instruction communication art and design and arts entrepreneurship The second section describes signature pedagogies in the social and natural sciences political science economics and chemistry Section three highlights the interdisciplinary fields of Ignatian pedagogy women's studies and disability studies and the book concludes with four chapters on professional pedagogies nursing occupational therapy social work and teacher education that illustrate how these pedagogies change as the social context changes as their knowledge base expands or as online delivery of instruction increases
