Rutten, Keyan G. Tomaselli, 2025-06-30 This book brings together a selection of articles that have been published throughout
a series of special issues of the journal Critical Arts South North Cultural and Media Studies that originally focused on the so
called ethnographic turn in contemporary arts An increasing wave of art events has occurred since the 1990s that have
displayed significant similarities with anthropology and ethnography in their theorizations of cultural difference and
representational practices The aim of these works was to revisit the ethnographic turn in contemporary art by bringing
together contributions from theorists artists and critics to engage critically with the ethnographic perspective in their work
This focus on the ethnographic turn has been expanded in subsequent special issues to explore how culture and society can
be critically explored and challenged through the detour of art how contemporary art practices engage with participation
interaction and technology in an increasingly digital screen culture and what the role can be of critical art to conceptualize
contest and or develop an engaged and critical pedagogy This collection aims to re-expose the special issues to an
international audience by presenting a non-exhaustive selection of articles that exemplify the different perspectives and
discussions that are tackled throughout It starts with three of the introductory articles that have attracted large readerships
and that give a detailed introduction for the special issues The compilation ends with three so-called Vignettes these are
short statements and reflections by artists about their practice which are an important feature of the special issues *The*
