Art On The Jesuit Missions In Asia And Latin America 1542 1773:

Art on the Jesuit Missions in Asia and Latin America, 1542-1773 Gauvin A. Bailey, 1999 Through a sweeping look at Jesuit activities in Japan China Mughul India and Paraguay Bailey finds evidence of artistic hybridization as a means of communication and argues in favour of a paradigm of artistic exchange

Aesthetic Hybridity in Mughal Painting, 1526-1658 Valerie Gonzalez, 2016-03-03 The first specialized critical aesthetic study to be published on the concept of hybridity in early Mughal painting this book investigates the workings of the diverse creative forces that led to the formation of a unique Mughal pictorial language Mughal pictoriality distinguishes itself from the Persianate models through the rationalization of the picture s conceptual structure and other visual modes of expression involving the aesthetic concept of mimesis If the stylistic and iconographic results of this transformational process have been well identified and evidenced their hermeneutic interpretation greatly suffers from the neglect of a methodologically updated investigation of the images conceptual underpinning Valerie Gonzalez addresses this lacuna by exploring the operations of cross fertilization at the level of imagistic conceptualization resulting from the multifaceted encounter between the local legacy of Indo Persianate book art the freshly imported Persian models to Mughal India after 1555 and the influx of European art at the Mughal court in the sixteenth and seventeenth centuries The author s close examination of the visuality metaphysical order and aesthetic language of Mughal imagery and portraiture sheds new light on this particular aspect of its aesthetic hybridity which is usually approached monolithically as a historical phenomenon of cross cultural interaction That approach fails to consider specific parameters and features inherent to the artistic practice such as the differences between doxis and praxis conceptualization and realization intentionality and what lies beyond it By studying the distinct phases and principles of hybridization between the variegated pictorial sources at work in the Mughal creative process at the successive levels of the project intention the practice realization and the result product the author deciphers the modalities of appropriation and manipulation of the heterogeneous elements Her unique

The Oxford Handbook of Early Modern European History, 1350-1750 Hamish Scott, 2015-07-23 This Handbook re examines the concept of early modern history in a European and global context The term early modern has been familiar especially in Anglophone scholarship for four decades and is securely established in teaching research and scholarly publishing More recently however the unity implied in the notion has fragmented while the usefulness and even the validity of the term and the historical periodisation which it incorporates have been questioned The Oxford Handbook of Early Modern European History 1350 1750 provides an account of the development of the subject during the past half century but primarily offers an integrated and comprehensive survey of present knowledge together with some suggestions as to how the field is developing It aims both to interrogate the notion of early modernity itself and to survey early modern Europe as an established field of study The overriding aim will be to establish that early modern is not simply a chronological label but possesses a substantive integrity Volume I examines

with paper veneers templates and sources of adaptable images This interdisciplinary collection unites scholars from different fields of art history who elucidate the agency of prints on more traditionally valued media and vice versa Contributors explore how after translations across traditional geographic temporal and material boundaries original meanings may be lost reconfigured or subverted in surprising ways whether a Netherlandish motif graces a cabinet in Italy or the print itself colored or copied is integrated into the calligraphic scheme of a Persian royal album These intertwined relationships yield unexpected yet surprisingly prevalent modes of perception Andrea Mantegna's 1470-1500 Battle of the Sea Gods an engraving that emulates the properties of sculpted relief was in fact reborn as relief sculpture and fabrics based on print designs were reapplied to prints returning color and tactility to the very objects from which they derived Together the essays in this volume witness a methodological shift in the study of print from examining the printed image as an index of an absent invention in another medium a painting sculpture or drawing to considering its role as a generative active agent driving modes of invention and perception far beyond the locus of its production

The Oxford Handbook of the Jesuits Ines G. Županov, 2019 Through its missionary pedagogical and scientific accomplishments the Society of Jesus known as the Jesuits became one of the first institutions with a truly global reach in practice and intention The Oxford Handbook of the Jesuits offers a critical assessment of the Order helping to chart new directions for research at a time when there is renewed interest in Jesuit studies In particular the Handbook examines their resilient dynamism and innovative spirit grounded in Catholic theology and Christian spirituality but also profoundly rooted in society and cultural institutions It also explores Jesuit contributions to education the arts politics and theology among others The volume is organized in seven major sections totaling forty articles on the Order's foundation and administration the theological underpinnings of its activities the Jesuit involvement with secular culture missiology the Order's contributions to the arts and sciences the suppression the Order endured in the 18th century and finally the restoration The volume also looks at the way the Jesuit Order is changing including becoming more non European and ethnically diverse with its members increasingly interested in engaging society in addition to traditional pastoral duties

Mughal Occidentalism Mika Natif, 2018-08-13 In *Mughal Occidentalism* Mika Natif elucidates the meaningful and complex ways in which Mughal artists engaged with European art and techniques from the 1580s-1630s Using visual and textual sources this book argues that artists repurposed Christian and Renaissance visual idioms to embody themes from classical Persian literature and represent Mughal policy ideology and dynastic history A reevaluation of illustrated manuscripts and album paintings incorporating landscape scenery portraiture and European objects demonstrates that the appropriation of European elements was highly motivated by Mughal concerns This book aims to establish a better understanding of cross cultural exchange from the Mughal perspective by emphasizing the agency of local artists active in the workshops of Emperors Akbar and Jahangir
