Critical Fashion Practice Adam Geczy,Vicki Karaminas,2017-02-09 There is a new form of design practice within the contemporary fashion industry which is active in complex forms of social commentary and critique While fashion in the modernist era has shown signs of criticism and subversion these were either in the form of subcultures or perversions such as punk or BDSM styling Today however these genres have been absorbed into the fashion industry itself meaning that

critical fashion is now far from limited to the subcultures from which it came This book explores this new space for criticism within the popular fashion sphere to demonstrate how designers are disrupting conventions challenging beliefs and stirring change from within the system itself Critical Fashion Practice considers a range of contemporary designers across the globe from the US to Japan whose conceptual designs embody this critical language including case studies such as Rei Kawakubo's deconstructive silhouettes for Comme des Garçons and Walter Van Beirendonck's sadomasochistic menswear collections amongst other key players such as Miuccia Prada Vivienne Westwood and Viktor Rolf Arguing that the rise of critical fashion coincides with a noticeable decline in the criticality of art Geczy and Karaminas go beyond slotting fashion into previously established art theories Conceiving a new cultural role for fashion that affords insight into identity class race sexuality and gender this book shows how fashion can not only reflect and comment on but can also be a part of social change

Icons of Style Paul Martineau, 2018-07-10 In 1911 the French publisher Lucien Vogel challenged Edward Steichen to create the first artistic rather than merely documentary fashion photographs a moment that is now considered to be a turning point in the history of fashion photography As fashion changed over the next century so did the photography of fashion Steichen's modernist approach was forthright and visually arresting In the 1930s the photographer Martin Munkcsi pioneered a gritty photojournalistic style In the 1960s Richard Avedon encouraged his models to express their personalities by smiling and laughing which had often been discouraged previously Helmut Newton brought an explosion of sexuality into fashion images and turned the tables on traditional gender stereotypes in the 1970s and in the 1980s Bruce Weber and Herb Ritts made male sexuality an important part of fashion photography Today following the integration of digital technology teams like Inez Vinoodh and Mert Marcus are reshaping our notion of what is acceptable not just aesthetically but also technically and conceptually in a fashion photograph This lavishly illustrated survey of one hundred years of fashion photography updates and reevaluates this history in five chronological chapters by experts in photography and fashion history It includes more than three hundred photographs by the genre's most famous practitioners as well as important but lesser known figures alongside a selection of costumes fashion illustrations magazine covers and advertisements
