

Welcome to the study guide to John Stott's *Basic Christianity*.

These notes were prepared by Dr. Christopher A. Faris, Ph.D. They are not endorsed by the publisher of Basic Christianity, nor by the author.

They are designed to assist an individual or a study group in considering the basic questions of each chapter.

How to best utilize these study guides

After printing out each set of questions, first, read each chapter with a pen in hand. Most of the questions were taken directly from the statements made in each chapter. Read the question and then read for the answer in the text.

Secondly, you will also find it valuable to have a Bible at hand. We recommend a New American Standard translation or the English Standard translation. Some of

the quotes that Stott uses are from different translations. Do not let this throw you. Remember, this is a *basic* introduction to Christianity and the claims of Christ.

When you find the answer write it down. You do not want to depend on your memory when you attend the small group or the class where this is being taught. We recommend also having a highlighter where you can highlight valuable and important ideas that come to mind while you're reading this book.

Lastly, and probably more important than anything else you must be willing to go where the information in this book leads you. In other words, you will benefit most when you are most teachable. Each person's eternal destiny is of utmost importance.

You also might want to keep a folder with the lessons as you print them out and record your answers. This way it becomes a valuable resource to you and to the others that may benefit from your study of this book.

Since Stott wrote *Basic Christianity* in 1958 there have been many editions of his work. For this reason, we have chosen not to list page numbers on the questions since they vary from edition to edition.
