Territorial Sovereignty Anna Stilz, 2019 This important new book by one of the world's leading political theorists boldly questions the moral justification for organizing our world as a territorial states system and proposes major changes to states' sovereign powers.

Thinking in Action George Arabatzis, Evangelos D. Protopapadakis, 2018-08-11 Action can only be spontaneous and impulsive if not guided by contemplation; contemplation on the other hand may only be luxurious playfulness if not either purposed or suitable to motivate action. This volume seeks to prove what may seem self-evident to common sense but adhering to common sense is never pointless nor excessive. Next to this *Thinking in Action* is the offspring of friendship, respect and commitment between two academic communities: the Hellenic and the Serbian philosophical communities that admittedly have a lot in common, especially with regard to philosophy and hopefully as many differences as needed in order to secure a long-lasting and fertile exchange of ideas. It is also the natural-born child of necessity: philosophy is about argumentation, debate and confrontation. *Thinking in Action* inaugurates the Hellenic-Serbian Philosophical Dialogue Series that entertains no hesitation in being as ambitious as any philosophical series could be: it seeks to establish a permanent wide and rich channel of fruitful philosophical interaction between the two philosophical communities. Having high aspirations is one thing; meeting these aspirations as well as the expectations of the reader is a totally different one. We wish *Thinking in Action*, the first volume of the Hellenic-Serbian Philosophical Dialogue Series, apart from being the initial step of a long journey, will also be a fascinating one to the reader.

Understanding Eating Disorders Simona Giordano, 2005 Starting with an analysis of these conditions and an exploration of their complex causes, Giordano then proceeds to address legal and ethical dilemmas such as a patient's refusal of life-saving treatment. The book is illustrated with many case studies.

New Frontiers in the Philosophy of Intellectual Property Annabelle Lever, 2012-07-05 Examines the justification of patents, copyrights and trademarks in light of the political controversy over the TRIPS agreement.

The Oxford Handbook of the History of Ethics Roger Crisp, 2013-01-31 Philosophical ethics consists in the human endeavour to answer rationally the fundamental question of how we should live. *The Oxford Handbook of the History of Ethics* explores the history of philosophical ethics in the western tradition from Homer until the present day. It provides a broad overview of the views of many of the main thinkers, schools and periods and includes in addition essays on topics such as autonomy and impartiality. The authors are international leaders in their field and use their expertise and specialist knowledge to illuminate the relevance of their work to discussions

in contemporary ethics The essays are specially written for this volume and in each case introduce the reader to the main lines of interpretation and criticism that have arisen in the professional history of philosophy over the past two or three decades
