DS-434 is a 12VDC battery and is a 12VDC system.

If you are not sure of the installation of any part of the quick start guide, please download the complete installation manual available at www.autopageusa.com. This quick start guide is a brief outline for professional installers that are familiar with the installation and operation of the remote start system. Please test all of your equipment to insure proper operation of the vehicle system returning to the customer.

For additional technical support, please call 800-434-4344 and visit for the first available technician. Technical support hours are Monday through Saturday from 8:00 to 5:00 Pacific Standard Time.

The Remote Starter with Remote Entry System has been designed to be installed on Transponder systems with an automatic transponder (DS-434).

DS-434 is a 12VDC battery and is a 12VDC system.

The system must be installed and tested through a safety switch as it will not start in any forward or reverse gear.

Some automatic transponder vehicles having other DS-434 vehicles with a remote starter may have a mechanical key, key, safety switch, or other safety switch. The mechanical key does not interrupt the starter circuit when the transponder is in any gear and does not allow the DS-434 to start in any forward or reverse gear.

Therefore, the system should never be installed on any vehicle that has a mechanical key, key, safety switch.

Once you install the system, you must verify that the vehicle will not start in any forward or reverse gear regardless of the type of vehicle.
