HHAI 2023: Augmenting Human Intellect Paul Lukowicz,Sven Mayer,Janin Koch,John Shawe-Taylor,2023-07-15 Artificial intelligence AI has been much in the news recently with some commentators expressing concern that AI might eventually replace humans But many developments in AI are designed to enhance and supplement the performance of humans rather than replace them and a novel field of study with new approaches and solutions to the development of AI has arisen to focus on this aspect of the technology This book presents the proceedings of HHAI2023 the 2nd International Conference on Hybrid Human Artificial Intelligence held from 26 30 June 2023 in Munich Germany The HHAI international conference series is focused on the study of artificially intelligent systems that cooperate synergistically proactively responsibly and purposefully with humans amplifying rather than replacing human intelligence and invites contributions from various fields including AI human computer interaction the cognitive and social sciences computer science philosophy among others A total of 78 submissions were received for the main conference track and most papers were reviewed by at least three reviewers The overall final acceptance rate was 43% with 14 contributions accepted as full papers 14 as working papers and 6 as

extended abstracts The papers presented here cover topics including interactive hybrid agents hybrid intelligence for decision support hybrid intelligence for health and values such as fairness and trust in hybrid intelligence We further accepted 17 posters and 4 demos as well as 8 students to the first HHAI doctoral consortium this year The authors of 4 working papers and 2 doctoral consortium submissions opted for not publishing their submissions to allow a later full submission resulting in a total of 57 papers included in this proceedings Addressing all aspects of AI systems that assist humans and emphasizing the need for adaptive collaborative responsible interactive and human centered artificial intelligence systems which can leverage human strengths and compensate for human weaknesses while considering social ethical and legal considerations the book will be of interest to all those working in the field **Regenerative-Adaptive**

Design for Sustainable Development Phillip B. Roös, 2020-09-15 In this book the author tests a regenerative adaptive pattern language theory towards investigating the possibilities of a holistic integrated design and planning method for sustainable development that incorporates the principles of regenerative design as well as an adaptive pattern language that re establishes our wholeness with nature and considers the vulnerabilities of a changing landscape The book examines an integral approach to contemporary theories of planning and design that explores the human nature relationship patterns in social and spatial interconnections between people and their natural environments The interconnectedness of human and natural systems is used to scaffold possible solutions to address key environmental and sustainability issues that specifically address the need for patterns of behaviour that acknowledge the duality of man and nature In 12 chapters the book presents a holistic regenerative adaptive pattern language that encapsulates how communities can better appreciate landscape change under future climate effects and acknowledges the importance to adapt to patterns of change of place and the environment and therefore inform the communities responses for sustainable development The application of the regenerative adaptive pattern language was tested along the Great Ocean Road region of the Victorian coast in Australia The concluding chapters argues that for human settlements and cities to be resilient and sustainable we must understand the interconnected patterns of human built environments and natural systems and how we function in a social spatial dimension with these The book is intended for practitioners and academic scholars with interest in sustainable development regenerative design pattern languages biophilia settlement planning and climate change adaptation
