No Trespassing Eva Hemmungs Wirtén, 2004-01-01 In this scholarly yet highly accessible work Eva Hemmungs Wirtén traces three main themes within the scope of cultural ownership authorship as one of the basic features of print culture the use of intellectual property rights as a privileged instrument of control and finally globalization as a pre condition under which both operate Underwritten by rapid technological change and increased global interdependence intellectual property rights are designed to protect a production that is no longer industrial but informational *No Trespassing* tells the story of a century of profound change in cultural ownership It begins with late nineteenth century Europe exploring cultural ownership in a number of settings across both spatial and temporal divides and concludes in today's global knowledge based society Wirtén takes an interdisciplinary and international approach using a wide array of material from court cases to novels for her purposes From Victor Hugo and the 1886 Berne Convention to the translation of Peter Heg's bestseller *Smilla's Sense of Snow* Wirtén charts a history of Intellectual property rights and regulations She addresses the relationship between author and translator looks at the challenges to intellectual property by the arrival of the photocopier takes into account the media conglomerates search for content as a key asset since the 1960s and considers how a Western legal framework interacts with attempts to protect traditional knowledge and folklore *No Trespassing* is essential reading for all who care about culture and the future regulatory structures of access to it

3-d Negotiation David A. Lax, James K. Sebenius, 2006-08-24 When discussing being stuck in a win-win vs win-lose debate most negotiation books focus on face-to-face tactics Yet table tactics are only the first dimension of David A. Lax and James K. Sebenius' pathbreaking *3-D Negotiation*™ approach developed from their decades of doing deals and analyzing great dealmakers Moves in their second dimension deal design systematically unlock economic and noneconomic value by creatively structuring agreements But what sets the 3-D approach apart is its third dimension setup Before showing up at a bargaining session 3-D Negotiators ensure that the right parties have been approached in the right sequence to address the right interests under the right expectations and facing the right consequences of walking away if there is no deal This new arsenal of moves away from the table often has the greatest impact on the negotiated outcome Packed with practical steps and cases *3-D Negotiation* demonstrates how superior setup moves plus insightful deal designs can enable you to reach remarkable agreements at the table unattainable by standard tactics

Creating Strategic Value Joseph Calandro, 2020-09-08 The principles of value investing have resonated with savvy practitioners in the world of finance for a long time In *Creating Strategic Value* Joseph Calandro Jr explores how the core ideas and methods of value investing can be profitably applied to corporate strategy and management

Calandro builds from an analysis of traditional value investing concepts to their strategic applications. He surveys value investing's past, present, and future, drawing on influential texts from Graham and Dodd's time-tested works to more recent studies to reveal potent managerial lessons. He explains the theoretical aspects of value investing, consistent approaches to corporate strategy and management, and details how they can be successfully employed through practical case studies that demonstrate value realization in action. Calandro analyzes the applicability of key ideas such as the margin of safety principle to corporate strategy in a wide range of areas beyond stocks and bonds. He highlights the importance of an information advantage, knowing something that a firm's competitors either do not know or choose to ignore, and explains how corporate managers can apply this key value investing differentiator. Offering expert insight into the use of time-tested value investing principles in new fields, *Creating Strategic Value* is an important book for corporate strategy and management practitioners at all levels, as well as for students and researchers.

The Recruiting Guide to Investment Banking Jerilyn J. Castillo, Peter J. McAniff, 2006. Intended to demystify what has historically been a closed-door world, *The Recruiting Guide to Investment Banking* provides insights into many of the formal and informal aspects of working on Wall Street. Here are answers to the questions you were reluctant to ask: From an insider's view of the hiring process and an understanding of life on the job to an introduction to the technical aspects of investment banking, this book is the equivalent of having an older sibling in the business.

Towards a New Deal Rob Davies, 2021-03-15. As the world economic system stumbles as trade wars intensify and the dangers of a diminishing global multilateralism threaten, Davies' new book offers a unique blend of astute analysis and personal experience. It is a must-read. Jeremy Cronin, former Deputy Minister of Transport, Africa's past quarter century has been shaped by the decisions and reach of one of the oldest political alliances in southern Africa: that between the African National Congress and the South African Communist Party. In this memoir, Rob Davies, one of the government's most articulate former senior ministers, looks back on the politics, policies, and inner workings of the South African government in the democratic era. He offers an insider's account of the evolution of trade and economic policy over the last 25 years, up to the presidency of Cyril Ramaphosa and the global impact of the COVID-19 pandemic. Leavened with intriguing anecdotes and informed by the author's very personal and humanising history of activism and exile, *Towards a New Deal* makes the case for an economic policy transformation that is focused on creating jobs and reducing poverty, that highlights South Africa's role in Africa, and that addresses the challenges of economic stagnation, climate change, and the fourth industrial revolution. It will be essential reading for economists, businesspeople, and ordinary readers keen to grasp the political and economic dynamics of the moment.

The Sociology of Religion George Lundskow, 2008-06-10.

Most Sociology of Religion texts are decidedly staid and uninteresting covering contemporary developments which are only contemporary only from a disciplinary perspective They are not contemporary if viewed from the perspective of the religion s practioners in religious and non religious settings The textbooks that attempt to be interesting to undergraduate students often fall short because they either try to cover too much in an encyclopedic format or sacrifice a sociological perspective for a personal one Many use real life examples only superficially to illustrate concepts Lundskow s approach is the opposite students will learn the facts of religion in its great diversity all the most interesting and compelling beliefs and practices and then learn relevant concepts that can be used to explain empirical observations The book thus follows the logic of actual research investigate and then analyze rather than approaching concepts with no real bearing on how religion is experienced in society This approach using provocative examples and with an eye toward the historical and theoretical not to mention global experience of religion will make this book a success in the classroom The author envisions a substantive approach that examines religion as it actually exists in all its forms including belief ritual daily living identity institutions social movements social control and social change Within these broad categories the book will devote particular chapters to important historical moments and movements leaders and various individual religions that have shaped the contemporary form and effect of religion in the world today *New Testament Theology* Thomas R. Schreiner, 2008-06 This comprehensive survey of New Testament theology is arranged thematically and includes careful exegesis of key passages **The New Testament and the Theology of Trust** Teresa Morgan, 2022 This study argues for the recovery of trust as a central theme in Christian theology and offers the first theology of trust in the New Testament displaying trust between God Christ and humanity as a risky dynamic forward looking life changing partnership
