making these treasures of Persian culture more available both to Westerners generally and most specifically to young people of Iranian descent who have grown up in the English speaking world perhaps without fully understanding the wealth of their heritage For them and all readers this will be a book of discovery **Die Romische Republik** EPUB 2-3,2015-04-22

of the Prophet Muhammads family and their followers led by his grandson Husain rose up in a rebellion against the ruling caliph Yazid The family and its supporters hopelessly outnumbered were massacred at Karbala in modern day Iraq The story of Karbala is the cornerstone of institutionalized devotion and mourning for millions of Shii Muslims Apart from its appeal to the Shii community invocations of Karbala have also come to govern mystical and reformist discourses in the larger Muslim world Indeed Karbala even serves as the archetypal resistance and devotional symbol for many non Muslims Until now

though little scholarly attention has been given to the widespread and varied employment of the Karbala event In *Reliving Karbala* Syed Akbar Hyder examines the myriad ways that the Karbala symbol has provided inspiration in South Asia home to the worlds largest Muslim population Rather than a unified reading of Islam Hyder reveals multiple sometimes conflicting understandings of the meaning of Islamic religious symbols like Karbala He ventures beyond traditional scriptural interpretations to discuss the ways in which millions of very human adherents express and practice their beliefs By using a panoramic array of sources including musical performances interviews nationalist drama and other literary forms Hyder traces the evolution of this story from its earliest historical origins to the beginning of the twenty first century Today Karbala serves as a celebration of martyrdom a source of personal and communal identity and even a tool for political protest and struggle Hyder explores how issues related to gender genre popular culture class and migrancy bear on the cultivation of religious symbols He assesses the manner in which religious language and identities are negotiated across contexts and continents At a time when words like martyrdom jihad and Shiism are being used and misused for political reasons this book provides much needed scholarly redress Through his multifaceted examination of this seminal event in Islamic history Hyder offers an original complex and nuanced view of religious symbols
