An Evolving Paradigm Anthony F. Buono,2012-05-01 An Evolving Paradigm An Evolving Paradigm Integrative Perspectives on Organizational Design Change Strategic Management and Ethics was prepared specifically for Benedictine University s doctoral program in organization development OD In addressing the myriad strategic considerations that underlie intervening in organizations questions of posturing image management and ethics raise significant challenges for how we think about our role as change agents and the unique set of responsibilities that we assume in that role An earlier

volume in the Research in Management Consulting series Emerging Trends in Management Consulting focused on the Janus faced nature of management consulting Janus the Roman god of doorways and gateways looking backwards and forwards with contrasting perspectives beginnings and endings comedy and tragedy good and evil is a useful analogy to capture the multidimensional nature positive and negative of the consulting realm For all the challenges and shortcomings the field of OD and change might encompass there are also those magical moments when our interventions succeed when our efforts truly enhance organizational performance and when organizational members grow develop and become more satisfied with their roles and activities The reality is that the latter demands our conscious attention commitment and to some degree sacrifice When we are less thoughtful than we should be when we are distracted by other commitments and obligations or when we find ourselves in situations where we are less than prepared is when Janus other face materializes The volume explores the possibilities and challenges inherent in OD intervention and change initiatives *The Failure of Governance in Bell, California* Thom Reilly, 2016-05-12 How could this have happened The question still lingers among officials and residents of the small southern California town of Bell Corruption is hardly an isolated challenge to the governance of America s cities But following decades of benign obscurity Bell witnessed the emergence of a truly astonishing level of public wrongdoing a level succinctly described by Los Angeles District Attorney Steve Cooley as corruption on steroids Even discounting the enormous sums involved the top administrator paid himself nearly 800 000 a year in a town with a 35 000 average income this was no ordinary failure of governance The picture that emerges from years of federal state and local investigations trials depositions and media accounts is of an elaborate culture of corruption and deceit created and sustained by top city administrators councilmembers police officers numerous municipal employees and consultants The Failure of Governance in Bell California Big Time Corruption in a Small Town details how Bell was rendered vulnerable to such massive malfeasance by a disengaged public lack of established ethical norms absence of effective checks and balances and minimal coverage by an overextended area news media It is a grim and nearly unbelievable story Yet even these factors fail to fully explain how such large scale corruption could have arisen More specifically how did it occur within a structure the council manager form of government that had been deliberately designed to promote good governance Why were so many officials and employees prepared to participate in or overlook the ongoing corruption To what degree can theories of governance such as contagion theory or the rover bandit theme explain the success of such blatant wrongdoing The Failure of Governance by Arizona State University Professor Thom Reilly himself former county manager of Clark County Nevada pursues answers to these and related questions through an analysis of municipal operations that will afford the reader deeper insight into the inner workings of city governments corrupt and otherwise By considering factors arising from both theory and practice Reilly makes clear in other words why the sad saga of Bell California represents both a case study and a warning *Preparing for High Impact Organizational Change* Gavin M. Schwarz, Anthony F. Buono, Susan M. Adams, 2019 Preparing for High Impact
