Voyeurism Simon Duff, 2018-08-02 This book is amongst the first of its kind in presenting a case study of voyeurism from a forensic psychology perspective and within the societal context Simon Duff provides an in depth description of the assessment formulation and treatment of a voyeur and offers a theoretical basis for the behaviour The book begins by covering a variety of explanations and previous treatments for voyeurs including learning theories and the aversive treatments that they give rise to It then moves on to focus on one specific case study a young man who has exhibited diversity in his voyeuristic offending before examining relevant details of his experiences in order to develop a formulation of his thinking and behaviour The formulation and resultant intervention are clearly and accessibly presented followed by a discussion of how this case provides direction for further research developments in our theoretical basis for understanding voyeurism and directions for assessment and intervention

New Perspectives on Arson and Firesetting Faye Horsley, 2021-09-28 *New Perspectives on Arson and Firesetting The Human Fire Relationship* is the first forensic text to move away from a sole focus on anti social firesetting The author presents a broader investigation of the role of fire in human life with a view to informing research and practice This book examines the evolutionary psychological and social significance of fire Drawing on interdisciplinary literature and original research data it challenges the existing understanding of arson and firesetting A new concept fire use is introduced which is conceptualised as sitting on a continuum from non criminalised to criminalised behavior The author combines her experience as a practitioner forensic psychologist with her own research to consider the practical application of an alternative perspective This includes a particular focus on the assessment and treatment of fire setters and a call for a socially informed approach to prevention The forensic scope applied focus and emphasis on the importance of interdisciplinary research and practice makes *New Perspectives on Arson and Firesetting* essential reading for students in fields such as anthropology sociology criminology and psychology as well as interdisciplinary scholars forensic practitioners and allied professionals The author is donating her royalties in full to Pancreatic Cancer UK
