

BATTLEFIELD OF THE MIND

What's Been On Your Mind Lately?

I. Mental Strongholds

- A. **2 Corinthians 10:3-5** – For the weapons of our warfare are not physical (weapons of the flesh and blood), but they are mighty before God for the overthrow and destruction of strongholds.

Demolish in us and upon arguments and theories and reasonings and every proud and lofty thing that sets itself up against the (true) knowledge of God; and we lead every thought and purpose every captive into the obedience of Christ (the Messiah, the Anointed One) . . .

1. Satan deliberately seeks to build strongholds in our minds.

He is a liar and he only lies to reverse the truth, which is lying. He deceives. We are deceived when we believe things that are not true.

2. We have weapons with which to defeat him.

3. It is a spiritual war we are fighting, and our weapons are spiritual. This war cannot be fought in a physical way.

4. We can't hit Satan, shoot him, smother him, set him up with a trap, or put him in jail, but we can defeat him.

B. What is a stronghold?

1. An area that is dominated by an enemy

2. If Satan dominates your attitude toward yourself, God, God's promises, etc., he is in control in that area.

Goldsmith,Bernard Laks,2019-03-20 We frequently see one idea appear in one discipline as if it were new when it migrated from another discipline like a mole that had dug under a fence and popped up on the other side Taking note of this phenomenon John Goldsmith and Bernard Laks embark on a uniquely interdisciplinary history of the genesis of linguistics from nineteenth century currents of thought in the mind sciences through to the origins of structuralism and the ruptures both political and intellectual in the years leading up to World War II Seeking to explain where contemporary ideas in linguistics come from and how they have been justified Battle in the Mind Fields investigates the porous interplay of concepts between psychology philosophy mathematical logic and linguistics Goldsmith and Laks trace theories of thought self consciousness and language from the machine age obsession with mind and matter to the development of analytic philosophy behaviorism Gestalt psychology positivism and structural linguistics emphasizing throughout the synthesis and continuity that has brought about progress in our understanding of the human mind Arguing that it is impossible to understand the history of any of these fields in isolation Goldsmith and Laks suggest that the ruptures between them arose chiefly from social and institutional circumstances rather than a fundamental disparity of ideas
