Big Data Little Data No Data Scholarship In The Networked World:

Big Data, Little Data, No Data Christine L. Borgman, 2017-02-03 An examination of the uses of data within a changing knowledge infrastructure offering analysis and case studies from the sciences social sciences and humanities Big Data is on the covers of Science Nature the Economist and Wired magazines on the front pages of the Wall Street Journal and the New York Times But despite the media hyperbole as Christine Borgman points out in this examination of data and scholarly research having the right data is usually better than having more data little data can be just as valuable as big data In many cases there are no data because relevant data don't exist cannot be found or are not available Moreover data sharing is difficult incentives to do so are minimal and data practices vary widely across disciplines Borgman an often cited authority on scholarly communication argues that data have no value or meaning in isolation they exist within a knowledge infrastructure an ecology of people practices technologies institutions material objects and relationships After laying out the premises of her investigation six provocations meant to inspire discussion about the uses of data in scholarship Borgman offers case studies of data practices in the sciences the social sciences and the humanities and then considers the implications of her findings for scholarly practice and research policy To manage and exploit data over the long term Borgman argues requires massive investment in knowledge infrastructures at stake is the future of scholarship

Big Data, 2016 Contemporary Perspectives on C.S. Lewis' 'The Abolition of Man' Timothy M. Mosteller, Gayne John Anacker, 2017-02-23 Beginning with a clear account of the historical setting for The Abolition of Man and its place within C S Lewis corpus of writing Contemporary Perspectives on C S Lewis The Abolition of Man History Philosophy Education and Science assesses and appraises Lewis seminal lectures providing a thorough analysis of the themes and subjects that are raised Chapters focus on the major areas of thought including philosophy natural law education literature politics theology science biotechnology and the connection between the Ransom Trilogy Drawing on Lewis central ideas they tackle questions such as is The Abolition of Man hostile to scientific inquiry Does Lewis provide an adequate rational defense of natural moral law Do the lectures address the philosophical questions of the 21st century as Lewis sought to provide answers to philosophical questions of the 20th century Dealing with themes across multiple areas of human inquiry the authors bring expertise from their respective fields to bear on the core issues raised in Lewis lectures The result is an interdisciplinary approach that offers the first comprehensive scholarly treatment of The Abolition of Man one of the most debated of Lewis works

Digital Roots Gabriele Balbi, Nelson Ribeiro, Valérie Schafer, Christian Schwarzenegger, 2021-09-07 As media environments and communication practices evolve over time so do theoretical concepts This book analyzes some of the most well known and fiercely discussed concepts of the digital age from a historical perspective showing how many of them have pre digital roots and how they have changed and still are constantly changing in the digital era Written by leading authors in media and communication studies the chapters historicize 16 concepts that have become central in the digital media literature focusing on three main areas The first part

Technologies and Connections historicises concepts like network media convergence multimedia interactivity and artificial intelligence The second one is related to Agency and Politics and explores global governance datafication fake news echo chambers digital media activism The last one Users and Practices is finally devoted to telepresence digital loneliness amateurism user generated content fandom and authenticity The book aims to shed light on how concepts emerge and are co shaped circulated used and reappropriated in different contexts It argues for the need for a conceptual media and communication history that will reveal new developments without concealing continuities and it demonstrates how the analogue digital dichotomy is often a misleading one
