Andrew Bomback

All Joy And No Fun The Paradox Of Modern Parenthood:

All Joy and No Fun Jennifer Senior, 2014-01-28 Thousands of books have examined the effects of parents on their children In *All Joy and No Fun* award winning journalist Jennifer Senior now asks what are the effects of children on their parents In *All Joy and No Fun* award winning journalist Jennifer Senior tries to tackle this question isolating and analyzing the many ways in which children reshape their parents lives whether it s their marriages their jobs their habits their hobbies their friendships or their internal senses of self She argues that changes in the last half century have radically altered the roles of today s mothers and fathers making their mandates at once more complex and far less clear Recruiting from a wide variety of sources in history sociology economics psychology philosophy and anthropology she dissects both the timeless strains of parenting and the ones that are brand new and then brings her research to life in the homes of ordinary parents around the country The result is an unforgettable series of family portraits starting with parents of young children and progressing to parents of teens Through lively and accessible storytelling Senior follows these mothers and fathers as they wrestle with some of parenthood s deepest vexations and luxuriate in some of its finest rewards Meticulously researched yet imbued with emotional intelligence *All Joy and No Fun* makes us reconsider some of our culture s most basic beliefs about parenthood all while illuminating the profound ways children deepen and add purpose to our lives By focusing on parenthood rather than parenting the book is original and essential reading for mothers and fathers of today and tomorrow [How to be a Happier Parent](#)

KJ Dell'Antonia, 2020-06-02 An encouraging guide to helping parents find more happiness in their day to day family life from the former lead editor of the New York Times Motherlode blog In all the writing and reporting KJ Dell Antonia has done on families over the years one topic keeps coming up again and again parents crave a greater sense of happiness in their daily lives In this optimistic solution packed book KJ asks How can we change our family life so that it is full of the joy we d always hoped for Drawing from the latest research and interviews with families KJ discovers that it s possible to do more by doing less and make our family life a refuge and pleasure rather than another stress point in a hectic day She focuses on nine common problem spots that cause parents the most grief explores why they are hard and offers small doable sometimes surprising steps you can take to make them better Whether it s getting everyone out the door on time in the morning or making sure chores and homework get done without another battle *How to Be a Happier Parent* shows that having a family isn t just about raising great kids and churning them out at destination success It s about experiencing joy real joy the kind you look back on look forward to and live for along the way **The Obligated Self** Mara H.

Benjamin, 2018-05-24 Mara H Benjamin contends that the physical and psychological work of caring for children presents theologically fruitful but largely unexplored terrain for feminists Attending to the constant concrete and urgent needs of children she argues necessitates engaging with profound questions concerning the responsible use of power in unequal relationships the transformative influence of love human fragility and vulnerability and the embeddedness of self in

relationships and obligations Viewing child rearing as an embodied practice Benjamin s theological reflection invites a profound reengagement with Jewish sources from the Talmud to modern Jewish philosophy Her contemporary feminist stance forges a convergence between Jewish theological anthropology and the demands of parental caregiving
