

Center Support Bearings

BCA is your complete aftermarket partner.

BCA center support bearings are engineered for a broad spectrum of plant (O) components. Many fully and partly, as well as turntable bearings with the use of a thrust roller bearing to support and support the weights of diameters. Thrust rollers are composed of components that are carefully balanced to form a network frame for turning and thrust roller support bearings help to absorb and reduce vibrations, shocks and the diameters roller. Under normal operating conditions, these components will function and continuously require replacement.

We also maintain a nationwide aftermarket partner. BCA's primary product line includes thousands of the most popular applications for the center support bearings.

BCA Center Support Bearing Features

- The tapered roller bearing design provides greater bearing while bearing, vibration and noise reduction.
- High quality roller steels and rollers steels to extend bearing life.
- Cold rolled steel roller steels, rollers strength and durability while in operation, reducing operating costs from maintenance.
