

seniority takes charge). All persons employed on the train must obey the conductor's instructions, unless the instructions endanger the train's safety or violate the rules. If any doubts arise concerning the authority for proceeding or safety, the conductor must consult with the engineer who will be equally responsible for the safety and proper handling of the train.

2. The conductor must advise the engineer and train dispatcher of any restriction placed on equipment being handled.

3. The conductor must remind the engineer that the train is approaching an area restricted by:

- Limits of authority.
- Track warrant.
- Track bulletin.

or

- Radio speed restriction.

The conductor must inform the engineer after the train passes the last station, but at least 2 miles from the restriction.

4. When the conductor is not present, other crew members must obey the instructions of the engineer concerning rules, safety, and protection of the train.

5. Freight conductors are responsible for the freight carried by their train. They are also responsible for ensuring that the freight is delivered with any accompanying documents to its destination or

terminals. Freight conductors must maintain any required records.

12. Duties of Crew Members Rule 1.47B: B. Engineer Responsibilities

1. The engineer is responsible for safely and efficiently operating the engine. Crew members must obey the engineer's instructions that concern operating the engine. A student engineer or other qualified employee may operate the engine under close supervision of the engineer. Any employee that operates an engine must have a current certificate in their possession.

2. The engineer must check with the conductor to determine if any cars or units in the train require special handling.

13. Duties of Crew Members Rule 1.47C: C. All Crew Members' Responsibilities

1. To ensure the train is operated safely and rules are observed, all crew members must act responsibly to prevent accidents or rule violations. Crew members in the engine control compartment must communicate to each other any restrictions or other known conditions that affect the safe operation of their train sufficiently in advance of such condition to allow the engineer to take proper action. If proper action is not being taken, crew members must remind engineer of such condition and required action.

Emmerson Wain Manning, 2019-12-05 In Practical Instruction for Detectives A Complete Course in Secret Service Study

Emmerson Wain Manning offers an authoritative guide into the intricacies of detective work. Written in a didactic yet engaging style, Manning crafts a comprehensive curriculum that dives deep into the methodologies and techniques crucial for effective investigations. This book serves not only as a pivotal resource for aspiring detectives but also as a significant historical document that reflects the evolution of secret service practices during the early 20th century when the profession was undergoing significant transformation amidst rising urban crime rates and a burgeoning interest in criminal psychology.

Emmerson Wain Manning, a notable figure in the field of law enforcement education, leveraged his extensive experience as a detective and instructor to pen this seminal work. His background includes service in various capacities within police departments and a commitment to enhancing the educational frameworks available to law enforcement personnel. Manning's firsthand experiences in the field provide readers with valuable insights, making his instructional approach both practical and grounded in reality.

This book is highly recommended for anyone interested in criminal justice, law enforcement studies, or detective fiction. Not only does it equip readers with essential skills pertinent to investigative work, but it also immerses them in the historical context that shaped modern detective practices. Manning's meticulous insights preserve a vital aspect of law enforcement history, making this work indispensable for scholars and practitioners alike.
