And Intersectionality Action Inclusive Classrooms Institutions:

Intersectionality in Action Peter Felten, Brooke Barnett, 2023-07-03 Colleges and universities silo diversity and inclusion by creating specific courses to address them or programs to welcome and support people with a range of identities whereas in reality students faculty and staff do not encounter diversity in the fractured ways that match the organizational structures of our institutions We all simultaneously embody a variety of identities with different saliency in different circumstances and times This book offers models for institutions to move intentionally toward intersections of study abroad and multiculturalism of race and gender and religion and of other essential aspects of our educational programs and our students identities to open doors to new possibilities that better prepare our students for life in a diverse world and that allow our institutions to become more efficient and effective as we strive to not simply do things better in our own separate spheres but to do better things by working together across difference Each chapter offers action oriented analysis focusing on particular campus intersections rather than attending to specific demographic groups Chapter authors also build on their own local expertise of doing this work on campuses that often do not have deep pockets or rich histories of such efforts The book is organized into three sections People focuses on diversity broadly defined considering questions about how we recruit and engage the students faculty and staff in the campus community and how we work with governing boards and others to promote inclusive excellence Environment focuses on inclusion including residence life the local community the working and learning environment and external factors and events such as national and international news or town gown relationships Learning focuses on perspective taking and learning about difference in the core curriculum the disciplines and the co curriculum as well as professional development for faculty and staff This ground reaking book helps readers no matter what position they occupy on campus to develop the knowledge and capacities necessary to create inclusive classrooms and is premised on the understanding that identity oppression power and marginalization cannot be addressed by looking solely at single identities

Though colleges and universities are arguably paying more attention to diversity and inclusion than ever before to what extent do their efforts result in more socially just campuses Intersectionality and Higher Education examines how race ethnicity class gender sexuality sexual orientation age disability nationality and other identities connect to produce intersected campus experiences Contributors look at both the individual and institutional perspectives on issues like campus climate race class and gender disparities LGBTQ student experiences undergraduate versus graduate students faculty and staff from varying socioeconomic backgrounds students with disabilities undocumented students and the intersections of two or more of these topics Taken together this volume presents an evidence backed vision of how the twenty first century higher education landscape should evolve in order to meaningfully support all participants reduce marginalization and reach for equity and equality

Building Transfer Student Pathways for College and Career Success Sonya Joseph, Mark Allen Poisel, 2018-10-04 Published in partnership with the National Institute for the Study of Transfer Students Analysis of bachelor's degree completion suggests that only about a third of college graduates attend a single institution from start to finish More than one quarter earn college credits from three or more schools before completing a degree For most these student defined pathways lead to increased time to degree and higher costs Many will simply drop out long before crossing the finish line Ensuring college completion and success requires an understanding of the evolving nature of transfer transitions and a system wide approach that reaches beyond two year and four year institutions to include high schools participating in dual enrollment programs and military college initiatives A new edited collection offers insight into institutional and statewide partnerships that create clearly defined pathways to college graduation and career success for all students
