And Future Internet Policy Peter Decherney:

The Future of Internet Policy Peter Decherney, Victor Pickard, 2017-10-02 All of the short essays in this volume look past the rhetoric of technological determinism and reliance on the natural logic of the market to consider the power of law and policy to steer new media in one direction or another Many of the essays look backwards through history or outwards across national borders They all look forward to how today's policies will shape the future of the internet and society A particular focus of interest for some of the contributors is the revelations that followed Edward Snowden's mass disclosure of classified documents in 2013 which revealed the U S National Security Agency's systematic and longstanding program of monitoring global communications Some chapters consider different countries varying approaches to regulating the proliferation of online communication while others assess the current state of digital technology They all call for policy interventions to solve market failures This book was originally published as a special issue of Critical Studies in Media Communication

Fake News Melissa Zimdars, Kembrew Mcleod, 2020-02-18 New perspectives on the misinformation ecosystem that is the production and circulation of fake news What is fake news Is it an item on Breitbart an article in The Onion an outright falsehood disseminated via Russian bot or a catchphrase used by a politician to discredit a story he doesn't like This book examines the real fake news the constant flow of purposefully crafted sensational emotionally charged misleading or totally fabricated information that mimics the form of mainstream news Rather than viewing fake news through a single lens the book maps the various kinds of misinformation through several different disciplinary perspectives taking into account the overlapping contexts of politics technology and journalism The contributors consider topics including fake news as disorganized propaganda folkloric falsehood in the Pizzagate conspiracy native advertising as counterfeit news the limitations of regulatory reform and technological solutionism Reddit's enabling of fake news the psychological mechanisms by which people make sense of information and the evolution of fake news in America A section on media hoaxes and satire features an oral history of and an interview with prankster activists the Yes Men famous for parodies that reveal hidden truths Finally contributors consider possible solutions to the complex problem of fake news ways to mitigate its spread to teach students to find factually accurate information and to go beyond fact checking Contributors Mark Andrejevic Benjamin Burroughs Nicholas Bowman Mark Brewin Elizabeth Cohen Colin Doty Dan Faltesek Johan Farkas Cherian George Tarleton Gillespie Dawn R Gilpin Gina Giotta Theodore Glasser Amanda Ann Klein Paul Levinson Adrienne Massanari Sophia A McClennen Kembrew McLeod Panagiotis Takis Metaxas Paul Mihailidis Benjamin Peters Whitney Phillips Victor Pickard Danielle Polage Stephanie Ricker Schulte Leslie Jean Thornton Anita Varma Claire Wardle Melissa Zimdars Sheng Zou

Stuart Hall Lives: Cultural Studies in an Age of Digital Media Peter Decherney, Katherine Sender, 2018-10-18 The work of cultural and political theorist Stuart Hall a pioneer of Cultural Studies who passed away in 2014 remains more relevant than ever In Stuart Hall Lives scholars engage with Hall's most enduring essays including Encoding Decoding and

Notes on Deconstructing the Popular bringing them into the context of the 21st century Different chapters consider resistant media consumers online journalism debates around the American Confederate flag and rainbow flags the OscarsSoWhite controversy and contemporary moral panics The book also includes Hall s important essay on French theorist Louis Althusser which is introduced here by Lawrence Grossberg and Jennifer Slack Finally two reminiscences by one of Hall s former colleagues and one of his former students offer wide ranging reflections on his years as director of Centre for Contemporary Cultural Studies at the University of Birmingham UK and as head of the Department of Sociology at The Open University Together the contributions paint a picture of a brilliant theorist whose work and legacy is as vital as ever This book was originally published as a special issue of Critical Studies in Media Communication [The Communication Crisis in America, And How to Fix It](#) Mark Lloyd, Lewis A. Friedland, 2016-10-27 with foreword by Michael X Delli Carpini Annenberg School for Communication University of Pennsylvania USA This book critiques U S public policy about communication and offers guidelines to improve public safety and create strong democratic communities The lack of effective emergency communication basic information about health care education jobs and the economy and civic life is at a crisis state creating problems for the whole community not just a vulnerable few The Communications Crisis in America is not because of changing markets or new technology it is the failure of public policy The authors include economists sociologists journalists lawyers and a diverse group of media and communication scholars all offering an urgent call to action and difficult but achievable steps forward **After Net Neutrality** Victor Pickard, David Elliot Berman, 2019-10-29 A provocative analysis of net neutrality and a call to democratize online communication This short book is both a primer that explains the history and politics of net neutrality and an argument for a more equitable framework for regulating access to the internet Pickard and Berman argue that we should not see internet service as a commodity but as a public good necessary for sustaining democratic society in the twenty first century They aim to reframe the threat to net neutrality as more than a conflict between digital leviathans like Google and internet service providers like Comcast but as part of a much wider project to commercialize the public sphere and undermine the free speech essential for democracy Readers will come away with a better understanding of the key concepts underpinning the net neutrality battle and rallying points for future action to democratize online communication **Media, Ideology and Hegemony**, 2018-09-11 Media Ideology and Hegemony contains a range of topics that provide readers with opportunities to think critically about the new digital world This includes work on old and new media on the corporate power structure in communication and information technology and on government use of media to control citizens Demonstrating that the new world of media is a hotly contested terrain the book also uncovers the contradictions inherent in the system of digital power and documents how citizens are using media and information technology to actively resist repressive power This collection of essays is grounded with a critical theoretical foundation and is informed by the importance of undertaking the analysis in historical perspective Contributors are Alfonso
