addressing these challenges Through a comprehensive exploration of these concepts readers will understand how to thrive in turbulent times **Learning Dynamics of Workplace Development Programmes** Agneta Halvarsson

Lundkvist,2019-02-13 The thesis focuses on workplace development programmes WPDPs that operationalize national policies on workplace development WPDPs are time limited and they provide support to organizations that aim to improve their operational performance or employees work conditions The support that such programmes provide to organizations consists of competence development activities provided through networks courses or hands on coaching The supported organizations aimed at changing work practices to increase their operational performance Departing from a workplace learning perspective the overall aim of the thesis was to contribute to knowledge about learning in workplace development programmes and the supported organizations when realizing policies on workplace development A qualitative multiple case study design was used and a total of 115 interviews and notes from meetings are included in the data material Four substudies made up the empirical base The findings revealed that realizing policies on workplace development required continuous learning among stakeholders at different levels of the WPDPs Thus conditions that enabled learning were important throughout the whole WPDP which was seen as a large complex social learning system Learning between different levels of the WPDP was especially important which required stakeholder representatives with the appropriate qualifications or characteristics that enabled them to take on roles as brokers between the stakeholders involved in realizing the policy The overall conclusion pointed towards the dynamics of realizing policies of workplace learning which cannot be achieved by a one size fitsall model for learning The findings imply that funders and other authorities that make policies on workplace development through WPDPs should scrutinize how learning among stakeholders that enter into partnership to operate WPDPs is to be facilitated Linear plans that are not complemented with careful explanations of how such learning is to be facilitated may constitute warning signs Furthermore the findings imply that organizations looking for external support to develop the innovative capabilities of employees must be careful in choosing their support A WPDP may consume the resources of an organization without providing any benefit if it does not provide the appropriate support On the other hand a WPDP may be a great source for learning particularly if it includes support in designing the change effort and help in developing an internal support infrastructure that will continue supporting workplace development after the programme ends I denna avhandling ligger fokus p tre nationella utvecklingsprogram vars avsikt r att st dja arbetsplatser och organisationer f r att realisera beslutsfattares policyer Med utg ngspunkt fr n ett arbetsplatsl randeperspektiv r syftet med avhandlingen att bidra med kunskap om l rande i arbetsplatsutvecklingsprogram och organisationer som dessa st djer f r att realisera policyer f r utveckling av arbetsplatser Studien har en multipel fallstudiedesign och totalt 115 intervjuer och anteckningar fr n m ten ing r i datamaterialet Resultaten visar att kontinuerligt l rande mellan intressenter p olika niv er i programmen var en n dv ndig f ruts ttning n r en policy skulle realiseras S rskilt viktigt var att de som representerade

intressenterna tog rollen som m klare vilket kr vde r tt kvalifikation och karakt rer f r att kunna knyta samman de olika intressenterna som realiserade policyn Den vergripande slutsatsen r att dynamiken i realiserande av policyer av detta slag visar p orimligheten i att hitta en modell f r l rande som passar alla arbetsplatsutvecklingsprogram Vidare kan ett utvecklingsprogram skapa goda f ruts ttningar f r l rande i deltagande organisationer om programmet ger st d vid utformning av f r ndringsinsatsen och vid utveckling av en intern infrastruktur som forts tter att st dja utveckling av arbetsplatsen efter det att programmet avslutas
