Japanese Grammar Kimihiko Nomura, 2010-10-21 Japanese Grammar The Connecting Point is instrumental for anyone learning Japanese who seeks to gain a firm grasp of the most important aspect of the language verb usage Learning Japanese may seem to be a daunting task but Dr Nomura s book will help readers conjugate verbs into a variety of formats construct sentences systematically and hold intelligible conversations in Japanese He groups all Japanese verbs into clusters creating a method of how each of those groups conjugate and then demonstrates how to combine various verb forms with auxiliary expressions to form complex sentences Not only is this method excellent for beginners as it creates a solid foundation for learners to increase their language ability and attain fluency at a rapid rate but also for intermediate and advanced levels as it will help them solidify their verb usage and use Japanese with greater confidence Learners will also benefit from Dr Nomura s method because they will be able to shift the level of formality in any conversational situation according to what is culturally appropriate Furthermore when a new verb is uttered by other people the learner will be able to immediately apply the agglutinative process described in this grammar book and generate sentences with a variety of suffixes in a culturally appropriate manner **Polysemous Particles in**

Exemplification and Categorization Alessandra Barotto, 2021-08-02 The book aims to examine the relationship between exemplification and categorization using linguistic data from Japanese to better understand how people create and communicate conceptual categories in real life situations of the notion of ad hoc categories In the book exemplification is defined in functional terms as a process through which a speaker signals that a given entity should be construed as representative of a larger category of similar entities The status of example can thus be encoded by means of dedicated analytical markers that overtly signal the exemplifying relation e.g. for example but also by making explicit reference to the larger category from which the examples have been selected Through a case study on four Japanese exemplifying markers *ya nado tari toka* this book aims to understand i) how examples are used and encoded by speakers to make reference to conceptual categories ii) what types of categories speakers can create and communicate by means of exemplification iii) how the relationship between exemplification and categorization can be used by speakers to achieve specific discourse effects such as vagueness and politeness
