Studies Jay Coakley, Eric Dunning, 2000 An authoritative cast of international and inter disciplinary contributors present the best of current thinking in sports studies as the subject matures and develops academically Postmodern and

Poststructural Approaches to Nursing Research Julianne Cheek, 1999-11-18 In the first three chapters the author examines definitions of postmodern and postcultural approaches and ways in which they can be used to influence and inform us about health care Chapters 4 and 5 look at the practical aspects of proposing and carrying out research projects using these approaches Cheek concludes by reviewing the intellectual journey required in coming to grips with the meaning and application of these approaches and she suggests ways in which the reader can continue to grow in his or her pursuit BOOK JACKET

Biographical Dictionary of Twentieth-Century Philosophers Stuart Brown, Diane Collinson, Robert

Wilkinson, 2012-09-10 This Biographical Dictionary provides detailed accounts of the lives works influence and reception of thinkers from all the major philosophical schools and traditions of the twentieth century This unique volume covers the lives and careers of thinkers from all areas of philosophy from analytic philosophy to Zen and from formal logic to aesthetics All the major figures of philosophy such as Nietzsche Wittgenstein and Russell are examined and analysed The scope of the work is not merely restricted to the major figures in western philosophy but also covers in depth a significant number of thinkers from the near and far east and from the non European Hispanic language communities The Biographical Dictionary also includes a number of general entries dealing with important schools of philosophy such as the Vienna Circle or currents of

thought such as vitalism These allow the reader to set the individual biographies in the context of the philosophical history of the period With entries written by over 100 leading philosophy scholars the Biographical Dictionary is the most comprehensive survey of twentieth century thinkers to date Structure The book is structured alphabetically by philosopher Each entry is identically structured for ease of access and covers nationality dates and places of birth and death philosophical style or school areas of interest higher education significant influences main appointments main publications secondary literature account of intellectual development and main ideas critical reception and impact At the end of the book a glossary gives accounts of the schools movements and traditions to which these philosophers belonged and thorough indexes enable the reader to access the information in several ways by nationality by major areas of contribution to philosophy e g aesthetics by major influences on the thinker concerned e g Plato Kant Wittgenstein

Postmodernity and the Fragmentation of Welfare John Carter, 2012-10-12 Postmodern ideas have been vastly influential in the social sciences and beyond However their impact on the study of social policy has been minimal Postmodernity and the Fragmentation of Welfare analyses the potential for a postmodern or cultural turn in welfare as it treats postmodernity as an evolving canon from the seminal works of Baudrillard Foucault and Lyotard through to recent theories of the risk society Already disorientated by globalisation new technologies and the years of new right ascendancy welfare faces a significant challenge in the postmodern It suggests that rather than universality and state provision the new social policy will be consumerised and fragmented a welfare state of ambivalence With contributions from authors coming from a variety of fields offering very different perspectives on postmodernity and welfare Postmodernity and the Fragmentation of Welfare also keeps social policy's intellectual inheritance in view By exploring ways in which theorisations of postmodernity might improve understanding of welfare issues in the 1990s and assessing the relevance of theories of diversity and difference to mainstream and critical social policy traditions this book will be an essential text for all students of social policy social administration social work and sociology

Challenging Modernity Mark A. Pegrum, 2000-04-01 When Dada burst onto the European stage in 1916 it shocked and scandalized the public of its day with art forms ideas and attitudes which were so revolutionary that it is only in recent decades that they have begun to find recognition within the broad cultural movement known as postmodernism In fact many postmodern artistic and intellectual tendencies can be seen to have descended via an underground tradition from the experiments of the Dadaists earlier this century Yet the existence of this close link has been largely neglected by scholars This book for the first time examines in depth the link between modernism and postmodernism and demonstrates the extensive similarities as well as the few crucial differences between the ideas and art of the Dadaists on the one hand and those of contemporary postmodern thinkers and artists on the other Although they did not have access to postmodern terminology it is clear that many Dadaists were essentially attempting to escape constrictive Enlightenment and modernist structures in order to create a proto postmodern space of difference otherness and flux Their successes failures and

compromises in this respect are very illustrative for anyone interested in the progress of our own intellectual and artistic culture in its wavering between modern and postmodern This book offers a much needed historical perspective and solid basis for the on going debate on postmodernism

The houses of history Anna Green, Kathleen Troup, 2016-08-15 The houses of history is a clear jargon free introduction to the major theoretical approaches employed by historians This innovative critical reader provides accessible introductions to fourteen schools of thought from the empiricist to the postcolonial including chapters on Marxist history Freud and psychohistory the Annales historical sociology narrative gender public history and the history of the emotions Each chapter begins with a succinct description of the ideas integral to a particular theory The authors then explore the insights and controversies arising from the application of this model drawing upon debates and examples from around the world Each chapter concludes with a representative example from a historian writing within this conceptual framework This newly revised edition of the highly successful textbook is the ideal basis for an introductory course in history and theory for students of history at all levels
