Animal Puppets Using Linkages:

Collaborations Within and Between Dramatherapy and Music Therapy Amelia Oldfield, Amanda Carr, 2018-08-21 Music therapy and dramatherapy share many of the same techniques and purposes yet the full potential of combining aspects of the two disciplines is yet to be explored This book examines the ways in which they can be brought together and unpacks the various contexts in which this approach can be taught and put to practice **Grace and Gravity** Lars

Spuybroek, 2020-11-26 How do we live well The first sentence of *Grace and Gravity* raises the fundamental question that constantly occupies our minds and of all those who lived before us Paradoxically the impossibility of answering this question opens up the very room needed to find ways of living well It is the gap where all disciplines fall short where architecture does not fit its inhabitants where economy is not based on shortage where religion cannot be explained by its followers and where technology works far beyond its own principles According to Lars Spuybroek the prize winning former architect this marks the point where the paradoxical machine of grace reveals its powers a point where we cannot say if we are moving or being moved Following the trail of grace leads him to a new form of analysis that transcends the age old opposition between appearances and technology Linking up a dazzling and often delightful variety of sources monkeys paintings lamp posts octopuses tattoos bleeding fingers rose windows robots smart phones spirits saints and fossils with profound meditations on living death consciousness and existence *Grace and Gravity* offers an eye opening provocation to a wide range of art historians architects theologians anthropologists artists media theorists and philosophers **Child Abuse, Domestic**

Violence, and Animal Abuse Frank R. Ascione, Phil Arkow, 1999 Evidence is mounting that animal abuse frequently embedded in families scarred by domestic violence and child abuse and neglect often predicts the potential for other violent acts As early intervention is critical in the prevention and reduction of aggression this book encourages researchers and professionals to recognize animal abuse as a significant problem and a human public health issue that should be included as a curriculum topic in training The book is an interdisciplinary source book of original essays that examines the relations between animal maltreatment and human interpersonal violence expands the scope of research in this growing area and provides practical assessment and documentation strategies to help professionals confronting violence do their jobs better by attending to these connections As an outgrowth of the Latham Foundation's 1995 training manual *Breaking the Cycles of Violence* this book is a historic step in helping professionals from these disciplines as well as the general public recognize the cyclical and insidious nature of family violence and provides training in recognizing peripheral forms of family violence outside a family's immediate purview It encourages cross disciplinary prevention and intervention strategies with an ultimate goal of reducing the levels of violence which is such a great societal and cultural concern today This book brings together for the first time all of the leaders in this emerging field They examine contemporary research and programmatic issues encourage cross disciplinary interactions and describe innovative programs in the field today Also included are vivid first

person accounts from survivors whose experiences included animal maltreatment among other forms of family violence Child Abuse Domestic Violence and Animal Abuse provides professional communities of psychologists and child welfare specialists with a deeper higher and more encompassing awareness and understanding of the crucial linking of caring for animals and children in human experience The combination of careful research documentation and compelling narrative accounts are blended into a rich resource to help professionals concerned citizens and parents understand how the ethics of caring are not bounded by species

The Linking Ring ,1961-12 Media Ventriloquism Jaimie Baron,Jennifer Fleegeer,Shannon Wong Lerner,2021-03-18 Media Ventriloquism offers a new take on the many forms ventriloquism takes in 21st century media from Skype to video games and the ways in which marginalized groups have used the act of separating the body from the voice to claim their agency and power

The Distressed Body Drew Leder,2016-10-17 Bodily pain and distress come in many forms They can well up from within at times of serious illness but the body can also be subjected to harsh treatment from outside The medical system is often cold and depersonalized and much worse are conditions experienced by prisoners in our age of mass incarceration and by animals trapped in our factory farms In this pioneering book Drew Leder offers bold new ways to rethink how we create and treat distress clearing the way for more humane social practices Leder draws on literary examples clinical and philosophical sources his medical training and his own struggle with chronic pain He levies a challenge to the capitalist and Cartesian models that rule modern medicine Similarly he looks at the root paradigms of our penitentiary and factory farm systems and the way these produce distressed bodies asking how such institutions can be reformed Writing with coauthors ranging from a prominent cardiologist to long term inmates he explores alternative environments that can better humanize even spiritualize the way we treat one another offering a very different vision of medical criminal justice and food systems Ultimately Leder proposes not just new answers to important bioethical questions but new ways of questioning accepted concepts and practices

Aesthetics, Affect, and Making Meaning in

Science Education Per-Olof Wickman,Vaughan Prain,Russell Tytler,2025-02-12 This book offers novel approaches theoretical insights and results on the development of students and teachers interest in science as situated learning It argues for the importance of the affective and emotional dimensions of teaching and learning in STEM classrooms in parallel to the cognitive dimensions Contributions to this book examine aesthetics aesthetic judgement and aesthetic experience in science education from the perspectives of researchers and practitioners and make a case for integrating aesthetics and affective experiences in science education teaching and learning research and practice They explore how an aesthetics of science can empirically be observed to take shape through classroom interactions and how such interactions influence learning and how science is valued in aesthetic terms in relation to other practices The research studies featured in this book span from preschool to undergraduate students and also include a theoretical contribution reviewing and synthesising the methodological contributions to this volume They draw on recent theoretical methodological and empirical advances on the role of aesthetic experience for learning science These new developments are used to investigate how a disciplinary aesthetics of science can be developed and can meet that of other subjects and how these various aesthetic practices may be generatively dovetailed for the benefit of learning science and developing an interest in science This book s contribution extends beyond the fields of science education research Its insights can assist policymakers instructional designers and teacher educators in considering emotional aspects of learning and values more generally when implementing strategies to foster meaning making alongside sense making It was originally published as a special issue of the International Journal of Science Education
