China Dreams William A. Callahan, 2015 To understand how China is shaping the twenty first century William Callahan's *China Dreams* eavesdrops on conversations between officials scholars bloggers novelists film makers and artists Rather than pitting Confucian China against the democratic west Callahan weaves Chinese and American ideals together to describe a new Chimerican dream

Belt And Road Initiative, The: Implications For The International Order Moritz Rudolf, 2021-09-14 This book showcases how the People's Republic of China PRC has been utilizing the Belt and Road Initiative BRI to reshape the global order Dissecting China's increasingly assertive international behaviour the book demonstrates how the PRC projects its self perception onto the international order The book outlines five aspects of China's international role projection which the PRC applies selectively depending on its target audience 1 The bearer of traditional Chinese culture 2 The humiliated nation 3 The socialist state with Chinese characteristics 4 The developing state and promoter of international development 5 The authoritarian globalization optimist Drawing on an in depth analysis of hundreds of primary BRI documents the book offers a comprehensive overview of China's most crucial foreign policy agenda item It demonstrates how through the BRI the PRC has introduced mechanisms to the international level which reflect its domestic policy making mode In addition the PRC has institutionalized the initiative by establishing China centered BRI networks across a wide range of policy areas Within those emerging China centered BRI networks the PRC systematically increases its international discursive power for example by inserting Chinese vocabulary into UN resolutions or by promoting

Beijing's approaches vis vis the rule of law across a range of developing states This book also further discusses the implications of the BRI for the international legal order **The Dragon Roars Back** Suisheng Zhao, 2022-11-29 Selected among Foreign Affairs's Best of Books 2024 China is unique in modern world history No other rising power has experienced China's turbulent history in its relations with neighbors and Western countries Its sheer size dominates the region With leader Xi Jinping's political authority unmatched Xi's sense of mission to restore what he believes is China's natural position as a great power drives the current course of the nation's foreign policy When China was weak it was subordinated to others Now China is strong and it wants others to subordinate at least on the issues involving what it regards as core national interests What are the primary forces and how have these forces driven China's reemergence to global power This book weaves together complex events processes and players to provide a historically in depth conceptually comprehensive and up to date analysis of Chinese foreign policy transition since the founding of the People's Republic of China PRC arguing that transformational leaders with new visions and political wisdom to make their visions prevail are the game changers Mao Zedong Deng Xiaoping and Xi Jinping are transformational leaders who have charted unique courses of Chinese foreign policy in the quest for security prosperity and power With the ultimate decision making authority on national security and strategic policies these leaders have made political use of ideational forces tailoring bureaucratic institutions exploiting the international power distribution and responding strategically to the international norms and rules to advance their foreign policy agendas in the path of China's ascendance China's International Relations and Harmonious World Astrid Nordin, 2016-04-28 As scholars and publics look for alternatives to what is understood as a violent Western world order many claim that China can provide such an alternative through the Chinese dream of a harmonious world This book takes this claim seriously and examines its effects by tracing the notion across several contexts the policy documents and speeches that launched harmony as an official term under previous president Hu Jintao the academic literatures that asked what a harmonious world might look like the propaganda and mega events that aimed to illustrate it the online spoofing culture that is used to criticise and avoid harmonization and the incorporation of harmony into current president Xi Jinping's Chinese dream This book finds contemporary Chinese society and international relations saturated with harmony Yet rather than offering an alternative to problems in Western thought it counter intuitively argues that harmony has not taken place is not taking place and will not take place The argument unfolds as a contribution to wider debates on time space and multiplicity in world politics Offering analysis of the important but understudied concept of harmony Nordin provides new and creative insights into wider contemporary issues in Chinese politics society and scholarship The book also suggests a creative and novel methodology for studying foreign policy concepts more broadly drawing on critical thinkers in innovative ways and in a new empirical context It will be of interest to students and scholars of IR Chinese foreign and security policy and IR theory

China's Political Worldview and Chinese Exceptionalism Benjamin Ho, 2025-10-01 China's Political Worldview and

Chinese Exceptionalism International Order and Global Leadership uses the notion of Chinese exceptionalism as a framework to analyze China's international politics and foreign policy This book argues that China's approach to international relations is best understood in the context of these claims to exceptionalism and China's broader political world view In doing so it fosters a more comprehensive understanding of China's actions within the realms of foreign policy and international politics and in the context of the preferred world order norms and rules that the country seeks to promote Focuses on the study of China's political worldview an area that is under studied by Western scholars of Chinese politics Emphasizes on China's diplomatic activities in Asia which is an area of great interest to policy makers Study on Chinese exceptionalism which is also an under researched albeit growing theme in recent years

Reading the Dream Peter Dale Scott, 2024-01-16 In *Reading the Dream* the poet and scholar Peter Dale Scott has composed a poem in prose for our time This is a work of art emerging from a passionate social vision Scott examines our present state of post secularity through the imagination of the past Using devices such as the rational and nonrational or the yin and the yang Scott focuses not just on the reasoned current of written history but also on myths beliefs and even dreams The author searches for moreness throughout the culture of the past He reawakens the ultimate human quest for transcendence of ourselves to repair a political order in ruins This book seeks to transcend the slow breakdown of our current global political order by returning to its generative cultural roots in enlightenment that is both secular and spiritual enlightenment It sees our emerging global culture as dialectical on interconnected levels the tension between scientific yang analysis and non rational yin hopes and dreams the source of this tension in the bicameral human brain in competing rural and urban ethical values and in the master servant relationship Behind the screen history of chaotic political violence it revives a vision of cultural progress in which the vertical imposition of political order from above is slowly supplanted by the emerging post secular tolerance of cultural diversity including both religion and science from below

The Characteristics of Chinese Cultural Spirit Qiyong Guo, 2021-09-13 This book discusses issues like the characteristics of Chinese cultural spirit life wisdom of Confucianism Buddhism and Daoism the management wisdom of traditional Chinese culture features of Chinese philosophy as well as the definition of guoxue or Chinese studies Referring to previous research the author defines the characteristics of the traditional Chinese cultural spirit as creating harmony amid diversity and viewing the outside world with a broad mind being vigorous and self motivated with tenacious vitality taking benevolence and righteousness as supreme and being independent considering people as the basis of the nation thinking systematically and dialectically and being pragmatic and thrifty This book is beneficial to studies on cultural awareness civilization comparison as well as civilization exchange

Another World Is Possible Geoff Mulgan, 2022-06-16 As the world confronts the fast catastrophe of Covid and the slow calamity of climate change we also face a third less visible emergency a crisis of imagination We can easily picture ecological disaster or futures dominated by technology But we struggle to imagine a world in which people thrive and where we improve our democracy welfare

neighbourhoods or education Many are resigned to fatalism yet they desperately want transformational social change This book argues that although the threats are real we can use creative imagination to achieve a better future visualising where we want to go and how to get there Political and social thinker Geoff Mulgan offers lessons we can learn from the past and methods we can use now to open up thinking about the future and spark action Drawing on social sciences the arts philosophy and history Mulgan shows how we can recharge our collective imagination From Socrates to Star Wars he provides a roadmap for the future
