European Foreign Policy in an Evolving International System N. Casarini, C. Musu, 2007-08-09

European Foreign Policy in an Evolving International System provides the reader with an updated assessment of European Foreign Policy fifteen years after Maastricht. The contributions analyze the level of policy convergence achieved by EU member states in crucial areas and regions of the world. **National and European Foreign Policy** Reuben Wong, Christopher Hill, 2012-04-27 Examines how national foreign policies in the EU affect common EU positions in international politics. **European Foreign Policy** Panos Koutrakos, 2011-01-01 Like early mariners politicians and officials trying to navigate European foreign policy find themselves in an environment of unpredictable hazards hidden institutional shoals and legal reefs that can tear the bottom out of a policy. This insightful collection of contrasted studies shines the twin beams of political science and legal analysis into these opaque depths. Practitioners as well as scholars will benefit from the illumination. Nick Witney European Council on Foreign Relations and Former Chief Executive of the European Defence Agency UK This collection on EU foreign policy is an attractive one for several reasons it contains a very nice set of essays on a topic which has loomed large on the European Union agenda for some years namely the international role of the EU. The chapters are written by a range of interesting and eminent scholars in the field. Most importantly in terms of its distinctive contribution the book brings together perspectives from law and from political science. This is done in part by including chapters by authors from different disciplines but also by choosing cross pillar themes and topics such as the European Neighbourhood Policy EU policy on Kosovo security and defence policy as well as more general cross cutting themes like the idea of coherence the position of the EU within international organizations and the approach of the EU to the international legal order. Each of the individual chapters is well worth reading and the book as a whole is a useful and interesting contribution to the existing literature. Grinne de B rca Harvard Law School US Written by leading experts this book focuses on central issues of the foreign policy of the European Union. The issues explored include how the EU's judges understand its relationship with the international order the coherence of the Union's external action the EU's approach to its neighbours the Common Security and Defence Policy and the EU's participation in international organisations. By addressing each topic from a legal political science and international relations standpoint this relevant book highlights the different perspectives that these disciplines bring to the central issues of the EU's foreign affairs and starts a conversation between the respective communities. Scholars and students in European and international law politics and international relations will find this book insightful. It will also prove timely for policy makers in the EU and international organisations as well as think tanks and non governmental organisations specialising in European affairs. *International History of the Twentieth Century and Beyond* Antony Best, Jussi M. Hanhimäki, Joseph A. Maiolo, Kirsten E. Schulze, 2024-09-03 Now in its fourth edition this highly successful global history of the twentieth century is written by four prominent international historians for first year undergraduate level and upward. Using their thematic and regional expertise the authors have produced an authoritative yet accessible and seamless account of the history of international relations in the last century covering events in Europe Asia

the Middle East Africa and the Americas They focus on the history of relations between states and on the broad ideological economic and cultural forces that have influenced the evolution of international politics over the last 120 years The fourth edition is thoroughly updated to take account of the most recent research and global developments including new material on the impact of the Trump administration on international politics the rise of China under the leadership of Xi Jinping and the origins of the wars in Ukraine and Gaza The book is supported by a fully revised companion website including links to further resources and self testing material which can be found at www.routledgelearning.com/internationalhistory20c

The Actors in Europe's Foreign Policy Christopher Hill, 2013-01-11 Five years ago observers might have doubted that national foreign policies would continue to be of importance it seemed inevitable that collective European positions were becoming ever more common and effective Now the pendulum has swung back with a vengeance The divided European responses to the prospect of war with Iraq in 1990-91 and to the war in the Balkans have made what happens in the national capitals seem divisive The Actors in Europe's Foreign Policy is a timely survey of the interplay between the European Union's Common Foreign and Security Policy and the long established national foreign policies of the Union's Member States The book contains a chapter on each country in the Union as well as a chapter on the United States in its role as the thirteenth seat at the table There is also a chapter on the European Commission whose role in the external relations of the Community steadily grew during the 1980s This book will be invaluable for students and scholars of the European Union and of international politics It will also be of great interest to practitioners in all countries concerned with Europe's role in international affairs

The Foreign Policies of Post-Yugoslav States S. Keil, B. Stahl, 2014-12-17 The post Yugoslav states have developed very differently since Yugoslavia dissolved in the early 1990s This book analyzes the foreign policies of the post Yugoslav states thereby focusing on the main goals actors decision making processes and influences on the foreign policies of these countries

European Foreign and Security Policy Catherine Gegout, 2010-05-08 The European Union's EU Common Foreign and Security Policy CFSP stipulates that all member states must unanimously ratify policy proposals through their representatives on the EU Council Intergovernmentalism or the need for equal agreement from all member nations is used by many political scientists and policy analysts to study how the EU achieves its CFSP However in *European Foreign and Security Policy* Catherine Gegout modifies this theory arguing instead for analyses based on what she terms constrained intergovernmentalism Gegout's theory of constrained intergovernmentalism allows for member states in particular France Germany and the United Kingdom to bargain with one another and to make rational decisions but also takes into account the constraints imposed by the United States the European Commission and the precedents set by past decisions Three in depth case studies of CFSP decision making support her argument as she examines the EU position on China's human rights record EU sanctions against Serbia and EU relations with NATO
