image and boost the economy of an entire state The pension fund was the Retirement Systems of Alabama and its alternative investment was in a string of golf courses and affiliated high end hotels and spas In business speak this was an economically targeted investment designed to diversify returns create jobs and increase tax revenue Twenty five years later the Robert Trent Jones Golf Trail is known worldwide for the quality and beauty of its courses and the hospitality and elegance of its resorts It has significantly increased Alabama s infrastructure for tourism and conventions provided millions upon millions in new tax revenues spurred construction of thousands of units of adjacent housing and helped persuade other businesses to locate in the state Making the Golf Trail a reality involved not only the initial vision of CEO David G Bronner and his associates at RSA but also the design genius and reputation of Robert Trent Jones Sr and the hard work of many dedicated engineers and builders It also required the cooperation of scores of local and state elected officials and economic developers This book is the illustrated historical account of the financial legal political and economic impact details of RSA s investment in the RTJ Golf Trail Such a detailed history could not have been written without the years of economic analysis conducted by author Mark Fagan dating back to the earliest stages of the concept Fagan s ongoing involvement with Dr Bronner and those working to develop the Trail made possible the mammoth one of a kind history that is presented in this book *ÓThe Land of NopityÓ: in and out the system based on a moderday slavery*. politics but extreme inequality's influence on our daily lives and our futures has been vastly overlooked In *Burned by Billionaires* author and a senior scholar at the Institute for Policy Studies in Washington DC Chuck Collins chronicles how the actions of the top 0.1% have severe consequences for the rest of us especially those of marginalized identities Collins takes down the myth of meritocracy unraveling how the rich rig the game in their favor resulting in a concentration of wealth in the hands of a tiny but growing class of billionaires leading to both intense income and political polarization In a wholly original argument Collins charts this economic social and ecological destruction and shows how these effects manifest in every facet of our society including Increasing the tax burden on ordinary working people Reducing public funding for schools roads and other essential infrastructure Shrinking the pool of affordable housing especially in poor and urban areas Accelerating climate change and dictating what ends up on our dinner plate Shaping the news we consume and fueling the spread of misinformation Collins argues that perhaps worst of all the concentration of wealth and power is leading to political hijacking undermining the democratic principle that our votes matter equally Full of engrossing charts graphs political cartoons and more this book is an urgent call to action and road map to a more equitable society where everyone has access to the resources that will allow them to thrive and one where it is no longer commonplace to live in a constant state of uncertainty fear and anxiety *Burned by Billionaires* offers a pointed prescription for taking power back from the billionaire class and achieving the shared prosperity that comes from a healthy and equal society
