Management of Breast Diseases Ismail Jatoi,Manfred Kaufmann,2010-02-11 In 2002 Lippincott published the Manual of Breast Diseases edited by Professor Ismail Jatoi The current book Management of Breast Diseases is an adaptation of that manual with Professor Manfred Kaufmann of the Goethe University of Frankfurt serving as co editor Most of the chapters from the original manual have been either extensively revised or discarded and several new chapters

added This text contains more material than the original manual but it is still intended as a basic guide for the wide spectrum of clinicians surgeons gynecologists oncologists radiation oncologists internists general practitioners who treat breast diseases both benign and malignant To compile this text we assembled experts from throughout the world Thus this text provides not only a broad overview of breast diseases but also highlights different perspectives from different parts of the world Yet it is worth noting that the management of breast cancer is now largely predicated on evidence based medicine Several large randomized prospective trials have demonstrated the efficacy of breast cancer screening and chemoprevention Other large trials have addressed the impact of systemic therapy radiotherapy and variations in local therapy on breast cancer mortality Many of these landmark trials are discussed in this text and they clearly have had a beneficial effect Indeed since about 1990 breast cancer mortality rates have declined substantially in most industrialized countries and this trend is expected to continue in the years ahead
