Edward MacDowell's European Piano Music is a critical study of the piano music that MacDowell composed during his European sojourn 1876 1888 steeped in reception history and with a special emphasis of programmaticism The book expands current knowledge of MacDowell's childhood in four of the chapters based on his previously uninvestigated sheet music collection thereby achieving a better balance among the stages of MacDowell's life than is evident in most books of the life and works variety Prolific contemporaneous music criticism meticulously preserved in MacDowell's scrapbooks is likewise undervalued in the MacDowell literature but it furnishes penetrating observations about the expressive and programmatic content of numerous compositions especially as it was revealed to critics when MacDowell performed his own works Lastly the book offers explanations for why MacDowell immersed himself in European culture for decades and then at a crucial juncture in his career embraced diverse American heritages and worked toward a conception of a pluralistic music that was American in a creative sense The book's content and methodology would appeal most directly to specialists within the broad fields of musicology and music theory particularly within American art music and its composers nineteenth century music program music reception history and piano literature **Steinberger** Jim Reilly,2020-04-15 Steinberger A Story of

Creativity and Design tells the story of musical instrument designer Ned Steinberger Ned's instruments have been pushing the boundaries both sonically and aesthetically for over 40 years and been played by the very best of the best musicians around the world Steinberger A Story of Creativity and Design explores Ned Steinberger's revolutionary contributions to the world of musical instrument design The first instrument he ever created the Spector NS 1 bass guitar in 1977 is still Spector's best selling instrument design With his next instruments the Steinberger basses and guitars Ned literally cut the head off the world of guitar and bass and redefined what the electric bass and guitar could be Steinberger instruments defined a

generation of musicians both sonically and visually and were played by the biggest artists of the day including Sting Bill Wyman of the Rolling Stones and Eddie Van Halen Never one to slow down Ned moved from electric guitars and basses to bowed electric instruments His NS Design instruments once again set the industry standards Throughout his career Ned has also worked with other builders and manufacturers and created or contributed to countless projects ranging from electronic tuners and pickups to acoustic guitars and drum head tuners Truly anytime you see NS in a music store it stands for Ned Steinberger With all those accomplishments many say that Ned is an unlikely musical hero Therein lies the story He is not a musician He comes from the world of art and design rather than the world of music but his influence can be seen to this day and he holds a place of honor alongside other visionaries like Leo Fender Les Paul and Ted McCarty
