our national content as well as our question selection is further tailored to the state testing outline promulgated by Pearson Vue for Alabama. Thus the breadth and depth of the law reviews and test questions reflect the topic emphasis of your state's testing service and your Alabama license exam. A word about the test questions: AL RELEP's testing practice section consists of ten national practice tests, five state practice tests, and one state exam sample test. The practice tests are roughly 50 questions in length, and the sample test is 100 questions. The test questions are designed to cover the content covered by the law reviews, which reinforces your learning of the total body of information tested by your state exam. The questions are direct to the point and designed to test your understanding. When you have completed a given test, you can check your answers against the answer key in the appendix. You may also note that each question's answer is accompanied by a brief explanation or rationale to further reinforce your understanding. In the end, as you know, it's all up to you. Unlike other publications, we are not going to tell you that using this book will guarantee that you pass your state exam. It still takes hard work and study to pass. But we have done our best here to get you ready. Following that, the most we can do is wish you the best of success in taking and passing your Alabama real estate exam. So good luck!

For students looking for an Alabama prelicense textbook to complement Alabama Real Estate License Exam Prep, we also have *Principles of Real Estate Practice in Alabama*. For additional real estate mathematics practice, we sell *Real Estate Math Express*.

*Musculoskeletal Examination and Assessment E-Book* Nicola J. Petty, Dionne Ryder, 2017-06-29. Now in its fifth edition, this core textbook continues to provide a comprehensive, systematic guide to the examination, assessment, and clinical reasoning processes needed by clinicians when managing patients with musculoskeletal conditions. Nicola Petty is joined by Dionne Ryder in editing this new edition, which also sees an expanded number of specialist clinicians and academics contributing individual chapters. *Musculoskeletal Examination and Assessment* provides an invaluable guide to the technical and clinical reasoning skills involved in the differential diagnosis of joint, nerve, and muscle tissues within a psychosocial model of health and illness. Three initial chapters outline the subjective and physical examination, as well as the clinical reasoning process. Subsequent chapters provide details of the examination for each region of the body. This edition is designed for physiotherapy and musculoskeletal therapy students as they get to grips with

contemporary clinical practice Provides a logical clinically reasoned and evidence enhanced approach to patient examination and assessment Emphasizes a patient centred approach Presents key clinical concepts of leading therapists and researchers in the field of musculoskeletal therapy Many drawings and photographs visually demonstrate techniques while enhancing descriptions in the text Clinical examples bring to life the clinical reasoning process An emphasis on consideration of the patient s perspective Reliability validity sensitivity and specificity of the physical tests are highlighted Vascular considerations are included throughout the text References updated throughout
