Serious Play Monica Obniski,Darrin Alfred,2018-01-01 A lively exploration of eclecticism playfulness and whimsy in American postwar design including architecture graphic design and product design This spirited volume shows how postwar designers embraced whimsy and eclecticism in their work exploring playfulness as an essential construct of modernity Following World War II Americans began accumulating more and more goods spurring a transformation in the field of interior decoration Storage walls became ubiquitous often serving as a home s centerpiece Designers such as Alexander Girard encouraged homeowners to populate their new shelving units with folk art as well as unconventional and modern objects to produce innovative and unexpected juxtapositions within modern architectural settings Playfulness can be seen in the colorful child sized furniture by Charles and Ray Eames who also produced toys And in the postwar corporate world the concept of play is manifested in the influential advertising work of Paul Rand Set against the backdrop of a society that was experiencing rapid change and high anxiety Serious Play takes a revelatory look at how many of the country s leading designers connected with their audience through wit and imagination The Invention of Design Maggie Gram,2025-06-03 A critical history of the idea of design and its utopian promise Design has penetrated every dimension of contemporary society from classrooms to statehouses to corporate boardrooms It s seen as a kind of mega power one that can solve all our problems and elevate our experiences to make a more beautiful more functional world But there s a backstory here In The Invention of Design designer and historian Maggie Gram investigates how over the twentieth century our economic hopes fears and fantasies shaped the idea of design then repeatedly redefined it Nearly a century ago resistance to New Deal era government intervention helped transform design from an idea about aesthetics into one about function And at century s end the dot com crash brought us design thinking the idea that design methodology can solve any problem small or large To this day design captures imaginations as a tool for fixing market society s broken parts from within supposedly enabling us to thrive within capitalism s sometimes violent constraints A captivating critical history The Invention of Design shows how design became the hero of many of our most hopeful stories dreams fantasies utopias about how we might better live in a modern world Happiness by Design Justus Nieland,2020-02-18 A cultural history of modern lifestyle viewed through film

and multimedia experiments of midcentury designers Charles and Ray Eames For the designers Charles and Ray Eames happiness was both a technical and ideological problem central to the future of liberal democracy Being happy demanded new things but also a vanguard life in media that the Eameses modeled as they brought film into their design practice Midcentury modernism is often considered institutionalized but Happiness by Design casts Eames era designers as innovative media artists technophilic humanists change managers and neglected film theorists Happiness by Design offers a fresh cultural history of midcentury modernism through the film and multimedia experiments of Charles and Ray Eames and their peers Will Burtin L szl Moholy Nagy and Gy rgy Kepes among others at a moment when designers enjoyed a new cultural prestige Justus Nieland traces how as representatives of the American Century s exuberant material culture Cold War designers engaged in creative activities that spanned disciplines and blended art and technoscience while reckoning with the environmental reach of media at the dawn of the information age Eames era modernism Nieland shows fueled novel techniques of culture administration spawning new partnerships between cultural and educational institutions corporations and the state From the studio showroom floor or classroom to the stages of world fairs and international conferences the midcentury multimedia experiments of Charles and Ray Eames and their circle became key to a liberal democratic lifestyle and also anticipated the look and feel of our networked present A Million Pictures Sarah Dellmann,Frank Kessler,2020-08-18 Slides for the magic or optical lantern were a major tool for knowledge transfer in the second half of the 19th and early 20th centuries Schools universities the church and many public and private institutions all over the world relied on the lantern for illustrated lectures and demonstrations This volume brings together scholarly research on the educational uses of the optical lantern in different disciplines by international specialists representing the state of the art of magic lantern research today In addition it contains a lab section with contributions by archivists and curators and performers reflecting on ways to preserve present and re use this immensely rich cultural heritage today Authors of this collection of essays will include Richard Crangle Sarah Dellmann Ine van Dooren Claire Dupr La Tour Jenny Durrant Francisco Javier Frutos Esteban Anna Katharina Graskamp Emily Hayes Erkki Huhtamo Martyn Jolly Joe Kember Frank Kessler Machiko Kusahara Sabine Lenk Vanessa Otero Carmen L pez San Segundo Ariadna Lorenzo Sunyer Daniel Pitarch Jordi Pons Montse Puigdeval Ang lique Quillay Angel Quintana Morraja Nadezhda Stanulevich Jennifer Tucker Kurt Vanhoutte M rcia Vilarigues Joseph Wachelder Artemis Willis Lee Wing Ki Irene Suk Mei Wong and Nele Wynants
