The Irrational Jesus Ken Evers-Hood, 2016-11-10 Behavioral science books are popping up on bestseller lists Predictably *Irrational Thinking Fast and Slow* *Nudge* *Decisive* Even the White House launched a Behavioral Insights Team to match the British Ministry of Nudges Conspicuously absent from this conversation is the church *The Irrational Jesus* bridges this gap Ken Evers Hood looks at Jesus through the lens of cognitive heuristics mental shortcuts and biases blind spots and makes the case that a fully human Jesus is predictably irrational just like all of us Find out how the Apostle Paul's community building mirrors a prisoner's dilemma game and how this makes Paul an irrational leader too Discover how playing better games in church can foster hopeful flourishing communities Improve your decision making learn when to plan for irrationality and when to live into it *The Irrational Jesus* addresses these issues and more Integrating the insights of behavioral economists

Transformations of the Supernatural Petra Schoenenberger, 2017-02-15 Daniel Defoe s work displays a keen interest in stories of supernatural encounters Once considering how one might prove supernatural occurrences and whether one can trust eyewitness accounts Defoe demonstrates that more is at stake Like his contemporaries Defoe wonders about the range of scientific insight and about the moral and epistemological ramifications of unchallenged trust and faith His transformations of the supernatural probe the boundaries of knowledge and evidence and play with the limits of cognition emphasizing the inseparability of mind and emotion

Climate Justice and Feasibility Sarah Kenehan, Corey Katz, 2021-10-12 This collection helps bridge the divide between the work of normative theorists and climate action or inaction In this volume contributors reflect on how we should understand the relationship between theorizing about climate justice the principles of justice that result and feasibility constraints on climate action Some explore the role of theorists or the usefulness of their theories for guiding policymaking and action on climate change while others discuss concerns with who is establishing what the feasibility constraints are and how they are doing so Others identify and discuss psychological feasibility constraints on just climate action or draw important parallels and distinctions between the feasibility constraints that were tackled in order to address the COVID 19 pandemic and those that need to be tackled in order to respond to global climate change The international and interdisciplinary contributors offer a range of approaches and frameworks to re think the ways that concerns of justice should be considered on the policy level speaking to students research scholars activists and policymakers
