Cognitive Kin, Moral Strangers? Linking Animal Cognition, Animal Ethics & Animal Welfare Judith

Benz-Schwarzburg, 2019-10-14 In *Cognitive Kin Moral Strangers* Judith Benz Schwarzburg reveals the scope and relevance of cognitive kinship between humans and non human animals She presents a wide range of empirical studies on culture language and theory of mind in animals and then leads us to ask why such complex socio cognitive abilities in animals matter Her focus is on ethical theory as well as on the practical ways in which we use animals Are great apes maybe better described as non human persons Should we really use dolphins as entertainers or therapists Benz Schwarzburg demonstrates how much we know already about animals capabilities and needs and how this knowledge should inform the ways in which we treat animals in captivity and in the wild

Following the Animal Ann-Sofie Lönngren, 2015-09-10 Literary transformations from human to animal have occurred in myths folklore fairy tales and narratives from all over the world since ancient times and have always provided a narrative space for depictions of power agency and the radical nature of change In *Following the Animal* these transformations are analysed with regards to their use in modern literature from northern most Europe with specific attention being paid to the insights they provide regarding the human animal relationship both generally in the industrialized West and against the background of more specific circumstances in the Nordic area In three analytic chapters focusing respectively on Swedish author August Strindberg's novel *Tschandala* 1887 Finnish author Aino Kallas's novel *The Wolf's Bride* 1928 and Danish author Karen Blixen Isak Dinesen's short story *The Monkey* 1934 along with discussions of a range of other authors and texts the reader is introduced to several traditions of literary production that both connect to and differ from Anglophone and other literature in fascinating ways In addition to the insights it provides concerning the uses of human animal transformations in modern Nordic literature and their significance in relation to the question of the animal *Following the Animal* also offers literary scholars and students alike a series of useable and transferable strategies for approaching texts from a more than anthropocentric human animal studies perspective In phrasing and employing the interpretational method of following the animal over the text's surface up metaphorical elevations down material wormholes and in constant dialogue with previous research this book contributes greatly to both human animal literary studies specifically and to the field of literary scholarship generally in both an international and northern European context

Humans and Animals Julie Urbanik, Connie L. Johnston, 2017-01-26 An engaging and at times sobering look at the coexistence of humans and animals in the 21st century and how their sometimes disparate needs affect environments politics economies and culture worldwide There is an urgent need to understand human animal interactions and relations as we become increasingly aware of our devastating impact on the natural resources needed for the survival of all animal species This timely reference explores such topics as climate change and biodiversity the impact of animal domestication and industrial farming on local and global ecosystems and the impact of human consumption of wild species

for food entertainment medicine and social status This volume also explores the role of pets in our lives advocacy movements on behalf of animals and the role of animals in art and media culture Authors Julie Urbanik and Connie L Johnston introduce the concept of animal geography present different aspects of human animal relationships worldwide and highlight the importance of examining these interconnections Alphabetical entries illustrate key relationships concepts practices and animal species The book concludes with a comprehensive appendix of select excerpts from key primary source documents relating to animals and a glossary

Your Inner Zoo Belinda Recio, 2022-01-11 What might we learn about our own human natures from the friskiness of a young goat the focus of a hawk the transformation of a butterfly or the hibernation of a bear How can animals through their natural and cultural histories offer us ideas that could help us better understand ourselves navigate a relationship or change an aspect of our lives Do the animals that we admire or fear reveal something about us What about the animals who appear in our dreams visions and creative inspirations These are some of the questions addressed in Your Inner Zoo A Guide to the Meaning of Animals and the Insights They Offer Us You can use Your Inner Zoo to explore yourself through animals to approach animals as teachers and guides to explore the possible meaning of animal encounters to connect with animals through their natural and cultural histories as an animal symbolism dictionary By exploring animal biology and behavior as well as the cultural roles that animals play in symbolism mythology and traditions Your Inner Zoo invites you to approach animals as a source of provocative ideas that can lead to self discovery and a deeper sense of connection with the more than human world

The Human-Animal Boundary Nandita Batra, Mario Wenning, 2018-11-27 Throughout the centuries philosophers and poets alike have defended an essential difference rather than a porous transition between the human and animal Attempts to assign essential properties to humans e g language reason or morality often reflected ulterior aims to defend a privileged position for humans This book shifts the traditional anthropocentric focus of philosophy and literature by combining the questions What is human and What is animal What makes this collection unique is that it fills a lacuna in critical animal studies and the growing field of ecocriticism It is the first collection that establishes a productive encounter between philosophical perspectives on the human animal boundary and those that draw on fictional literature The objective is to establish a dialogue between those disciplines with the goal of expanding the imaginative scope of human animal relationships The contributions thus do not only trace and deconstruct the boundaries dividing humans and nonhuman animals they also present the reader with alternative perspectives on the porous continuum and surprising reversal of what appears as human and what as nonhuman

Critical Perspectives on Veganism Jodey Castricano, Rasmus R. Simonsen, 2016-09-13 This book examines the ethics politics and aesthetics of veganism in contemporary culture and thought Traditionally a lifestyle located on the margins of western culture veganism has now been propelled into the mainstream and as agribusiness grows animal issues are inextricably linked to environmental impact as well as to existing ethical concerns This collection connects veganism to a range of topics including

gender sexuality race the law and popular culture It explores how something as basic as one's food choices continue to impact on the cultural political and philosophical discourse of the modern day and asks whether the normalization of veganism strengthens or detracts from the radical impetus of its politics With a Foreword by Melanie Joy and Jens Tuidor this book analyzes the mounting prevalence of veganism as it appears in different cultural shifts and asks how veganism might be rethought and re practised in the twenty first century

Animals, Empathy, and Anthropomorphism Carlo Salzani, 2025-05-05 This open access book explores the role of imagination in animal ethics and its constitutive links to empathy sympathy and anthropomorphism The book argues for the constitutive role of imagination in ethical deliberation but acknowledges that there exist important limits to its use However limit is here understood not merely negatively as restriction and insufficiency but rather positively as condition of possibility so what the book explores and analyses are the conditions for a positive and fruitful use of the imagination in ethics The book uses as a frame the questions and issues raised in J M Coetzee's *The Lives of Animals* to explore some central and salient themes

Ape John Sorenson, 2009-10-15 Apes to look at them is to see a mirror of ourselves Our close genetic relatives fascinate and unnerve us with their similar behavior and social personality Here John Sorenson delves into our conflicted relationship to the great apes which often reveal

Tourism and Animal Ethics David A. Fennell, 2024-02-26 This timely book provides a critical account of the role that animals play in the tourism industry representing an extension of the sustainability imperative and environmental theory Written by a leading academic and author this volume explores the rich history of animal ethics research both inside and outside of tourism studies for the purpose of providing greater theoretical empirical conceptual and practical guidance It examines historical and current practices of the use of animals in the tourism industry from both in situ to ex situ consumption and production perspectives identifying a range of ethical issues associated with such use This second edition has been updated to reflect contemporary research and thinking around animal welfare hunting and consumption with new chapters on animals as food and policy at the national and international levels New case studies have been integrated throughout Offering an interdisciplinary overview of the moral issues related to the use of animals in tourism through cutting edge research this book is essential reading for students academics and researchers interested in tourism ethics sustainable tourism and wildlife tourism

Postmodern Animal Steve Baker, 2000-03 In *The Postmodern Animal* Steve Baker explores how animal imagery has been used in modern and contemporary art and performance and in postmodern philosophy and literature to suggest and shape ideas about identity and creativity Baker cogently analyses the work of such European and American artists as Olly and Suzi Mark Dion Paula Rego and Sue Coe at the same time looking critically at the constructions performances and installations of Robert Rauschenberg Louise Bourgeois Joseph Beuys and other significant late twentieth century artists Baker's book draws parallels between the animal's place in postmodern art and poststructuralist theory drawing on works as diverse as Jacques Derrida's recent analysis of the role of animals in philosophical thought and Julian
