When Science and Politics Collide Robert O. Schneider,2018-03-07 This book explains why science and politics collide why this is an especially critical problem at this precise time in U S history and what should be done to ensure that science and politics coincide The United States is waging a political war against science and the stakes are increasing When it comes to areas in which science and politics must interact such as genetics climate and energy political interests are always pushing to spin the relevant science but this becomes problematic when Americans abandon rationality for ideology or misinformation manufactured to confuse and persuade them In a series of five contemporary examples When Science and Politics Collide The Public Interest at Risk makes the case that none of the ways in which science and politics currently communicate serve the public interest and that some of them actually result in great harm It explains that whether about climate change vaccines pandemics or fracking experimentally proven and reproducible data and evidence can save lives and poor politically motivated policies can doom them The book concludes with recommendations for creating a more perfect union between scientific facts and political agendas

Historic Sites and Landmarks That Shaped America Mitchell Newton-Matza,2016-09-06 Exploring the significance of places that built our cultural past this guide is a lens into historical sites spanning the entire history of the United States from Acoma Pueblo to Ground Zero Historic Sites and Landmarks That Shaped America From Acoma Pueblo to Ground Zero encompasses more than 200 sites from the earliest settlements to the present covering a wide variety of locations It includes concise yet detailed entries on each landmark that explain its importance to the nation With entries arranged alphabetically according to the name of the site and the state in which it resides this work covers both obscure and famous landmarks to demonstrate how a nation can grow and change with the creation or discovery of important places The volume explores the ways different cultures viewed revered or even vilified these sites It also examines why people remember such places more than others Accessible to both novice and expert readers this well researched guide will appeal to anyone from high school students to general adult readers

West Point Graduates and the United States Air Force Charles F.G. Kuyk, Jr.,Charles F.G. Kuyk III,2020-06-29 West Point graduates played a central role in developing U S military air and space power from the earliest days of mechanized flight through the establishment of the U S Air Force in 1947 and continuing through the Persian Gulf War These graduates served at a time when the world's greatest wave of technological advancement occurred in aviation nuclear weapons rocketry ICBMs computers satellite systems in inner space and man in outer space This history traces the advancement of weapons and space technology that became the

hallmark of the U S Air Force and the pivotal role that West Point graduates played in integrating them into a wide variety of Air Force systems and programs Many became aircraft commanders test pilots astronauts and later in their careers general officers who helped shape and implement technologies still in use today The Story of the Earth in 25 Rocks Donald R. Prothero,2018-01-02 Every rock is a tangible trace of the earth s past The Story of the Earth in 25 Rocks tells the fascinating stories behind the discoveries that shook the foundations of geology In twenty five chapters each about a particular rock outcrop or geologic phenomenon Donald R Prothero recounts the scientific detective work that shaped our understanding of geology from the unearthing of exemplary specimens to tectonic shifts in how we view the inner workings of our planet Prothero follows in the footsteps of the scientists who asked and answered geology s biggest questions How do we know how old the earth is What happened to the supercontinent Pangea How did ocean rocks end up at the top of Mount Everest What can we learn about our planet from meteorites and moon rocks He answers these questions through expertly chosen case studies such as Pliny the Younger s firsthand account of the eruption of Vesuvius the granite outcrops that led a Scottish scientist to theorize that the landscapes he witnessed were far older than Noah s Flood the salt and gypsum deposits under the Mediterranean Sea that indicate that it was once a desert and how trying to date the age of meteorites revealed the dangers of lead poisoning Each of these breakthroughs filled in a piece of the greater puzzle that is the earth with scientific discoveries dovetailing with each other to offer an increasingly coherent image of the geologic past Summarizing a wealth of information in an entertaining approachable style The Story of the Earth in 25 Rocks is essential reading for the armchair geologist the rock hound and all who are curious about the earth beneath their feet **The Indian Space Programme**

Gurbir Singh,2017-10-17 Fifty years in the making India s Space Programme is fulfilling the vision of its founders and delivering services from space that touch the lives of 1.3 billion people every day In addition to operating a collection of satellites for weather Earth observation navigation and communication today India has a spacecraft orbiting Mars and a space telescope in Earth orbit This book provides the big picture of India s long association with science from historical figures like Aryabhata and Bhaskara to Homi Bhabha and Vikram Sarabhai the key architects of its space program It covers the scientific contribution of Indian scientists during the European Enlightenment and industrial revolution It traces the technological development of Tipu Sultan s use of rockets for war in the 1780s the all but forgotten contribution of Stephen H Smith s use of rockets as a means of transport in 1935 in northern India and the emergence of Sriharikota India s spaceport the heart of India s modern Space Programme A detailed account of how a fishing village in Kerala was transformed into a space centre and used to launch India s first rocket into space on 21 November 1963 A detailed summary of India s space infrastructure launch vehicles deep space network Telemetry Tracking and Command and space assets in orbit Description of how the ordinary people of India benefit from the services delivered by the space programme Why India chose to go to the Moon and Mars and how it got there The prospects for India s ambitions in space for human spaceflight
