Communities of Practice Patrick E. Marlow, Sabine Siekmann, 2013-06-13 Educators scholars and community activists recognize that immersion education is a key means to restoring Indigenous and other heritage languages But language maintenance and revitalization involve many complex issues foremost may be the lack of local professional development

opportunities for potential language teachers In Alaska the Second Language Acquisition Teacher Education SLATE project was designed to enable Indigenous communities and schools to improve the quality of native language and English language instruction and assessment by focusing on the elimination of barriers that have historically hindered degree completion for Indigenous and rural teachers The Guided Research Collaborative GRC model was employed to support the development of communities of practice through near peer mentoring and mutual scaffolding Through this important new model teachers of both the heritage language in this case Central Yup'ik and English were able to situate their professional development into a larger global context based on current notions of multilingualism In Communities of Practice contributors show how the SLATE program was developed and implemented providing an important model for improving second language instruction and assessment Through an in depth analysis of the program contributors show how this project can be successfully adapted in other communities via its commitment to local control in language programming and a model based on community driven research Communities of Practice demonstrates how an initial cohort of Yup'ik and English language teachers collaborated to negotiate and ultimately completed the SLATE program In so doing these educators enhanced the program and their own effectiveness as teachers through a greater understanding of language learning It is these understandings that will ultimately allow heritage and English language teachers to work together to foster their students success in any language

Kincheloe, 2008 The second edition of the Critical Pedagogy Primer not only introduces the topic but also provides a vision for the future of the critical pedagogy Kincheloe's notion of an evolving criticality makes sure that critical pedagogy will continue to be a vibrant and creative force that makes a powerful difference in education and in the world in general As it prepares readers for the challenges of the future it focuses on the traditions and individuals who have helped construct the discipline This attention to

the past and the future provides readers with an introduction unlike most initiations into academic disciplines In a richly textured but direct manner Kincheloe captures the spirit of critical pedagogy in a language accessible to diverse audiences Both the uninitiated and those with experience in critical pedagogy can learn from this unique and compelling perspective on the field
