Parliament. House of Commons: Business, Innovation and Skills Committee, 2010-03-22 Motorsport and aerospace are two industries in which the United Kingdom is a world leader and the Committee believes that the future success of the UK economy will be based on these types of industries Concerns regarding the aerospace included the current US complaint in the World Trade Organisation and the Government's right to support the industry through Repayable Launch Investment and that the UK aerospace sector has access to export trade credit at less favourable rates and through a more complex system than other countries In examining the motorsport industry the Committee felt that there was a lack of understanding and effective engagement by Government They are not content with the Government's current plans to take forward its work with the sector through the UK Automotive Council Instead they recommend that the Government establish a dedicated motorsport policy team within the Department for Business Innovation and Skills Small and medium sized enterprises also play a very important role in supporting both sectors but they have been hit worst by the recession and the Government needs to do more to encourage high performance engineering firms to diversify Both sectors require a highly skilled workforce and more needs to be done to align the education system with the skills needs of the industries Finally is the problem of the non green image that both industries have **The Real Global Warming Disaster** Christopher Booker, 2013-01-31 Booker focuses his attention on the mother of all environmental scares global warming This original book considers one of the most extraordinary scientific and political stories of our time how in the 1980s a handful of scientists came to believe that mankind faced catastrophe from runaway global warming and how today this has persuaded politicians to land us with what promises to be the biggest bill in history Christopher Booker interweaves the science of global warming with that of its growing political consequences showing how just when the politicians are threatening to change our Western way of life beyond recognition the scientific evidence behind the global warming theory is being challenged like never before The book exposes the myth that the global warming theory is supported by a consensus of the world's top climate scientists It shows how the UN's Intergovernmental Panel on Climate Change is run by a small group of global warming zealots who have repeatedly rigged evidence to support their theory But the politicians pushed by the media have so fallen for its propaganda that short of dramatic change our Western world now faces an unprecedented disaster **The Parliamentary Monitor** , 2005 Parliamentary Debates (Hansard).
