Evaluating Instructional Leadership Julie R. Smith, Raymond L. Smith, 2015-02-19 Improve principal evaluation and create highly effective leaders Even with great teachers student achievement hinges on an effective principal Behind every high quality principal is an airtight system of leadership evaluation that consistently rewards excellence and remedies deficits While teacher evaluation methods have improved instructional leadership evaluation has often stood still and student learning and achievement have paid the price This book identifies the major problems in this process and articulates clear solutions The result is a blueprint for ensuring the best person for the job is occupying the principal s chair Content includes Extensive data presented in a user friendly manner Clear connections to the ISLLC Standards for School Leaders A suite of interactive tools including sample self assessments mid year and final evaluation forms and professional growth plans This book not only highlights the key messages about the role of the leader but it does so in a way that is engaging practical and reflects the Smiths long history of being school leaders teaching school leaders and seeing the effects of their teaching I have seen the Smiths in action separately and together and they know how to lead and how to teach they have a strength of purpose they do not waver from and these attributes come through in this book John Hattie Director Melbourne Education Research Institute University of Melbourne After reading this book you ll truly understand what it takes to grow as a lead learner We can always get better This book provides quality insight on strategies that will make good leaders great Brad Currie School Leader Corwin Author and Co Founder of Satchat **A Chronicle of Echoes** Mercedes K.

Schneider, 2014-04-01 Corporate reform is not reform at all Instead it is the systematic destruction of the foundational American institution of public education The primary motivation behind this destruction is greed Public education in America is worth almost a trillion dollars a year Whereas American public education is a democratic institution its destruction is being choreographed by a few wealthy well positioned individuals and organizations This book investigates and exposes the handful of people and institutions that are often working together to become the driving force behind destroying the community public school Academic History and Prior FCAT Scores as Indicators of Potential Success on the Florida High School Exit Examination Judith Webb Ring, 2007

Is There Something Else Wrong with the FCAT? Terry Froman, 2007 Because 3rd Grade Florida Comprehensive Assessment Test FCAT scores have a direct impact on promotion the results for that grade level are released early by the State When the FCAT results for 3rd Grade were released in May 2007 many people were troubled Over 80% of the elementary schools in the Miami Dade School District showed a decrease in the percentage of students scoring in Levels 3 and above in Reading Similar trends produced an outcry across the state After an 8 percentage point jump in the previous year there was a statewide drop of 6 percentage points in 2007 These results were more than surprising and cast doubt on the soundness of the scoring process After a careful review the Education Commissioner announced that there did appear to be a problem in the scoring of the test and a rescaling of the 3rd Grade FCAT reading

exam would be forthcoming This admission by the State while honorable and praiseworthy opened the door for many to question other aspects of the FCAT test sometimes without just cause While it is clearly unfair to discount the overall precision and usefulness of the FCAT some form of careful review of scores is nonetheless proper The search for the same kind of irregular trends in the data that brought this type of problem to the surface is always warranted and should be welcomed Any abnormalities revealed in the examination of the scores need to be made public so that the need for in depth analysis can be considered It is in that spirit that this paper presents some unusual patterns in the data for FCAT Reading at the middle school level

Keys to FCAT Florida. Department of Education,1999 **Keys to FCAT** Florida. Department of Education,1999 **Race, Socio-economic Status, School Level-resources, and Parental Influences on FCAT Scores in Florida** Tara C. King,2005 There is an abundance of literature that focuses on the standardized test score difference between minority and non minority students Within this literature socio economic factors parental influences and school level resources have been used to explain the difference in test scores The purpose of this study is to identify the variables that are thought to significantly influence test score achievement The data come from the Florida Department of Education and the US Census Linear regression analyses results are used to examine the relationship between the independent and the dependent variables The results showed that overall economic factors are more closely related to FCAT scores than race More specifically the percent of students receiving free lunch was negatively correlated with FCAT scores

Keys to FCAT Florida. Department of Education,1999 *Keys to FCAT* Florida. Department of Education,1999 FCAT Retrospective Terry Froman,Vilma Rubiera,Aleksander Shneyderman,2006 The Florida Comprehensive Assessment Test FCAT is the primary measure of student achievement applied to the grading of the Florida public schools School grades utilize a point system in which schools are awarded one point for every percent of students 1 scoring in achievement levels 3 5 in Reading 2 demonstrating learning gains in Reading 3 in the lowest 25% of Reading making gains 4 scoring in achievement levels 3 5 in Mathematics 5 demonstrating learning gains in Mathematics and 6 scoring 3 5 or above in Writing Each school gets points toward their school grade in direct proportion to the number of students meeting the standards in six different component areas This paper depicts the changes in FCAT points earned toward school grades in both the District and the State over the last three years In all component except Writing where standards were raised in 2005 the District has demonstrated greater gains than the State and in some components exceeded the State s performance It is important to exercise caution in attributing changes in student achievement to specific causes There are a great many of potential influences on achievement and in many cases trends in the district seem to be paralleled by similar trends across the state However the improvements observed over the past three years in achievement scores and school grades are hard to interpret as anything but substantial improvement for the district
