Eating Beauty Ann W. Astell,2016-02-09 The enigmatic link between the natural and artistic beauty that is to be contemplated but not eaten on the one hand and the

eucharistic beauty that is both seen with the eyes of faith and eaten on the other intrigues me and inspires this book One cannot ask the aesthetic questions about the Eucharist without engaging fundamental questions about the relationship between beauty art broadly defined and eating from Eating Beauty In a remarkable book that is at once learned startlingly original and highly personal Ann W Astell explores the ambiguity of the phrase eating beauty The phrase evokes the destruction of beauty the devouring mouth of the grave the mouth of hell To eat beauty is to destroy it Yet in the case of the Eucharist the person of faith who eats the Host is transformed into beauty itself literally incorporated into Christ In this sense Astell explains the Eucharist was productive of an entire way of life a virtuous life form an artwork with Christ himself as the principal artist The Eucharist established for the people of the Middle Ages distinctive schools of sanctity Cistercian Franciscan Dominican and Ignatian whose members were united by the eucharistic sacrament that they received Reading the lives of the saints not primarily as historical documents but as iconic expressions of original artworks fashioned by the eucharistic Christ Astell puts the faceless Host in a dynamic relationship with these icons With the advent of each new spirituality the Christian idea of beauty expanded to include first the marred beauty of the saint and finally that of the church torn by division an anti aesthetic beauty embracing process suffering deformity and disappearance as well as the radiant lightness of the resurrected body This astonishing work of intellectual and religious history is illustrated with telling artistic examples ranging from medieval manuscript illuminations to sculptures by Michelangelo and paintings by Salvador Dal Astell puts the lives of medieval saints in conversation with modern philosophers as disparate as Simone Weil and G W F Hegel

English Spirituality Gordon Mursell, 2001-01-01 This wide ranging historical survey provides an indispensable resource for those interested in exploring teaching or studying English spirituality In two stand alone volumes it traces history from Roman times until the year 2000 The main Christian traditions and a vast range of writers and spiritual themes from Anglo Saxon poems to late modern feminist spirituality are included These volumes present the astonishing richness and variety of responses made by English Christians to the call of the divine during the past two thousand years

The Stigmata in Medieval and Early Modern Europe Carolyn Muessig, 2020 Francis of Assisi's reported reception of the stigmata on Mount La Verna in 1224 is almost universally considered to be the first documented account of an individual miraculously and physically receiving the five wounds of Christ The early thirteenth century appearance of this miracle however is not as unexpected as it first seems Interpretations of Galatians 6 17 I bear the marks of the Lord Jesus Christ in my body had been circulating since the early Middle Ages in biblical commentaries These works perceived those with the stigmata as metaphorical representations of martyrs bearing the marks of persecution in order to spread the teaching of Christ in the face of resistance By the seventh century the meaning of Galatians 6 17 had been appropriated by bishops and priests as a sign or mark of Christ that they received invisibly at their ordination Priests and bishops came to be compared to soldiers of Christ who bore the brand stigmata of God on their bodies just like Roman soldiers who were branded with the name of their

emperor By the early twelfth century crusaders were said to bear the actual marks of the passion in death and even sometimes as they entered into battle The Stigmata in Medieval and Early Modern Europe traces the birth and evolution of religious stigmata and particularly of stigmatic theology as understood through the ensemble of theological discussions and devotional practices Carolyn Muessig assesses the role stigmatics played in medieval and early modern religious culture and the way their contemporaries reacted to them The period studied covers the dominant discourse of stigmatic theology that is from Peter Damian's eleventh century theological writings to 1630 when the papacy officially recognised the authenticity of Catherine of Siena's stigmata

Truth and Reality Douglas Dales, 2021-01-28 This is a thorough study and exposition of the last work for which St Bonaventure was responsible before his death in 1274 The Collations on the Hexaemeron also called The Illuminations of the Church comprises lectures that he gave in Paris in 1273 to Franciscan and other students and masters in the university there They were recorded by two independent witnesses and one version the definitive one was prepared for publication and approved by Bonaventure This is one of the most interesting original and important texts of medieval theology and it has been well translated and edited in a new edition The purpose of this study is to examine the precise context for the approach that Bonaventure took to place this work as the culmination of his spiritual theology and to provide the reader with a lucid epitome of the contents of the text drawing out their significance for theology and prayer in the life of the Church tod255p ay
