Animal Reintroductions The Arabian Oryx In Oman:

Animal Reintroductions Mark R. Stanley Price, 1989-09-14 This book explores the reintroduction of the oryx back into the wild from zoo populations *Animal re-introductions : the arabian oryx in Oman* Mark R. Stanley Price, 1989

Reintroduction of Fish and Wildlife Populations David S. Jachowski, Joshua J. Millspaugh, Paul L. Angermeier, Rob Slotow, 2016-09-20 Reintroduction of Fish and Wildlife Populations provides a practical step by step guide to successfully planning implementing and evaluating the reestablishment of animal populations in former habitats or their introduction in new environments In each chapter experts in reintroduction biology outline a comprehensive synthesis of core concepts issues techniques and perspectives This manual and reference supports scientists and managers from fisheries and wildlife professions as they plan reintroductions initiate releases of individuals and manage restored populations over time Covering a broad range of taxonomic groups ecosystems and global regions this edited volume is an essential guide for academics students and professionals in natural resource management **Antelopes** David P. Mallon, Steven Charles Kingswood, 2001 Antelope herds numbering in the tens of thousands formerly occurred across the steppes and semideserts of Eurasia and India but these have nearly all been reduced to fractions of their earlier size antelope populations are now fragmented across the region and during recent decades several species have disappeared altogether Threats include hunting loss of habitat population fragmentation inadequate protected area coverage poorly developed administrative structures under resourcing of conservation programmes and lack of enforcement of existing legislation Rising human population growth and economic development constantly increases pressure on land and natural resources There is a consequent need for integrated rural development and community based conservation projects which have the full participation of local people at the planning and execution stages This publication Part 4 of the Global Antelope Survey covers 37 countries in the region and actions to conserve antelope populations are listed in each country report **Conservation and Mobile Indigenous Peoples** Dawn Chatty, Marcus Colchester, 2002 Includes statistics Science and the Endangered Species Act Committee on Scientific Issues in the Endangered Species Act, Commission on Life Sciences, Division on Earth and Life Studies, National Research Council, 1995-10-27 The Endangered Species Act ESA is a far reaching law that has sparked intense controversies over the use of public lands the rights of property owners and economic versus environmental benefits In this volume a distinguished committee focuses on the science underlying the ESA and offers recommendations for making the act more effective The committee provides an overview of what scientists know about extinction and what this understanding means to implementation of the ESA Habitat its destruction conservation and fundamental importance to the ESA is explored in detail The book analyzes Concepts of species how the term species arose and how it has been interpreted for purposes of the ESA Conflicts between species when individual species are identified for protection including several case studies Assessment of extinction risk and decisions under the ESA how these decisions can be made more effectively The book concludes with a

look beyond the Endangered Species Act and suggests additional means of biological conservation and ways to reduce conflicts It will be useful to policymakers regulators scientists natural resource managers industry and environmental organizations and those interested in biological conservation

Zoo Studies Paul A. Rees,2023-06-01 Zoos and aquariums are culturally and historically important places where families enjoy their leisure time and scientists study exotic animals Many contain buildings of great architectural merit Some people consider zoos little more than animal prisons while others believe they play an important role in conservation and education Zoos have been the subject of a vast number of academic studies whose results are scattered throughout the literature This interdisciplinary volume brings together research on animal behaviour visitor studies zoo history human animal relationships veterinary medicine welfare education enclosure design reproduction legislation and zoo management conducted at around 200 institutions located throughout the world The book is neither pro nor anti zoo and attempts to strike a balance between praising zoos for the good work they have done in the conservation of some species while recognising that they face many challenges in making themselves relevant in the modern world

Zoo and Aquarium History Vernon N. Kisling, Jr,2022-07-11 Wild animals have been housed in zoos and aquariums for 5 000 years fascinating people living in virtually every society Today these institutions are at a new milestone in their history This second edition of Zoo and Aquarium History takes the reader on a journey through the transition of private collections to menageries to zoos then zoological gardens and more recently conservation centers and sanctuaries Under the direction of Vernon N Kisling an expert in zoo history an international team of authors has thoroughly updated the only comprehensive global history of animal collections menageries zoos and aquariums The resulting book documents the continuum of efforts in maintaining wild animal collections from ancient civilizations through today explaining how modern zoos have developed their mission statements around the core aims of conservation education research and recreation This new edition pulls together regional information including new chapters on zoological gardens of Canada Latin America China Israel the Middle East and New Zealand along with the cultural aspects of each region to provide a foundation upon which further research can be based It presents a chronological listing of the world s zoos and aquariums and features many never before published photographs Sidebars present supplementary information on pertinent personalities events and wildlife conservation issues The original Appendix has been expanded to include over 1 200 zoos and aquariums providing an invaluable resource This is an extensive chronological introduction to the subject highlighting the published and archival resources for those who want to know more

The Kihansi Spray Toad (Nectophrynoides asperginis): Crisis Biology in the 21st Century William D. Newmark,2025-05-15 The captive breeding and reintroduction of highly threatened species are among the most challenging conservation interventions and often represent the final tool in a comparatively small toolbox to

conserve rapidly declining species This book details the species recovery program that was designed and implemented over two decades to conserve the Kihansi Spray Toad *Nectophrynoides asperginis* an extinct in the wild tropical amphibian More than 20 international and national institutions were involved in the design and implementation of the species recovery program This complex two decade effort highlights the challenges of conserving highly threatened tropical amphibians and integrating conservation with development in the 21st century This volume will appeal to biologists conservation and development practitioners and institutions and individuals concerned about the conservation of biodiversity
