## **Animals Of The Four Windows Integrating Thinking Sensing Feeling And Imagery:**

*Animals of the Four Windows* Eligio Stephen Gallegos, 1991 This is a profoundly important provocative and groundbreaking book the first clear and comprehensive introduction to the four modes of human knowing Dr Gallegos thesis that there are in fact four windows that they are of equal value and power and that our survival depends on re dressing are over reliance upon thinking appears at first to be a revelation But then we settle into a deeper remembering that this is something we have always known before we were taught and trained otherwise Indeed reading this book initiates our own Journey of Return to our original balance of knowing It is a must read for all educators all psychotherapists all parents Really for all human denizens of 20th century self destroying industrial growth society Bill Plotkin Ph D Clinical Psychologist Steve Gallegos presents us here with a new approach and proof of its validity The process is for the sake of reaching wholeness and with that liberation One might say that he lets the divine in us have its say because it is in us and manifests all the time but we can hear it only if we listen and do not interfere with our analyzing minds One would wish that this book be widely read by educators and psychologists and used as a new and effective approach Here is a true revisioning of psychology and a powerful means to understanding and respecting our depth Edith Wallace M D Ph D Author of A Queen s Quest In this new book Stephen Gallegos has opened his conceptual windows wider than before to include the four human faculties also discussed by Carl Jung Thinking feeling and sensation are presented similarly to Jung s system but his new twist is creatively insightful the fourth function is imagery not intuition as Jung has it Gallegos envisions intuition as potential to all the functions Deep imagery alive with its own suchness as are the animals is not just to be manipulated for our own ends as in some psychological systems of guided imagery but respected for its own inner vitality and wisdom It is a revitalization of the human soul from within that is the real goal of Stephen Gallegos approach The reader will find his prose clear and inviting while he reveals to us a new yet very old way of revisioning our minds This book is a must for those interested in self exploration guided imagery and the never ending self transformative work of the creative shaman Stephen Larsen Author of The Shamans Doorway and The Mythic Imagination The Animals of the Four Windows presents an overview of the four modes of knowing Thinking Sensing Imagery and Feeling While it has certain similarities to Jung s ideas on the same topic its major difference is that it distinguishes between Imagery and Intuition in a way Jung did not The book describes how the ways of knowing have been distorted and how we have moved out of balance with a strong bias towards thinking and sensing and a lack of value on Imagery and Feeling It explores the possibility of a return by the Four Ways of Knowing to a balanced relationship with one another in each individual as a way of healing and of accessing our deep inner wisdom
