works during the second half of the book ranging from opera and chamber music to film. Rather than restricting style and technique, Nyman's intertextual approach on the contrary is shown to provide his music with an almost infinite amount of variety, flexibility and diversity, and this has been used to illustrate a wide range of technical, aesthetic and expressive forms. He composes with his ear towards the past as if it were a rich quarry to mine, working like a musical archaeologist uncovering artefacts and chiselling fresh and vibrant sonic edifices out of them. *The Saxophone Symposium*, 1994
