An Introduction to Metaphysics John W. Carroll, Ned Markosian, 2010-04-08 Discusses and invites students to reflect on topics such as causation freedom and determinism laws of nature and material objects *An Introduction to Metaphysics* John W. Carroll, 2010 Discusses and invites students to reflect on topics such as causation freedom and determinism laws of nature and material objects *An Introduction to Metaphilosophy* Søren Overgaard, Paul Gilbert, Stephen Burwood, 2013-03-07 What is philosophy How should we do it Why should we bother to These are the kinds of questions addressed by metaphilosophy the philosophical study of the nature of philosophy itself Students of philosophy today are faced with a confusing and daunting array of philosophical methods approaches and styles and also deep divisions such as the notorious rift between analytic and Continental philosophy This book takes readers through a full range of approaches analytic versus Continental scientific versus humanistic pure versus applied enabling them to locate and understand these different ways of doing philosophy Clearly and accessibly written it will stimulate reflection on philosophical practice and will be invaluable for students of philosophy and other philosophically inclined readers Metaphysics and the Philosophy of Science Matthew H. Slater, Zanja Yudell, 2017 This volume of new essays written by leading philosophers of science explores a broadly methodological question what role should metaphysics play in our philosophizing about science The essays address this question both through ground level investigations of particular issues in the metaphysics of science and by more general methodological investigations *An Introduction to the Philosophy of Mind* E. Jonathan Lowe, 2000-01-20 A lucid and wide ranging introduction to the philosophy of mind suitable for readers with a basic grounding in philosophy **The Bloomsbury Companion to Metaphysics** Neil A. Manson, Robert W. Barnard, 2014-12-18 Bridging the gap between the familiar figures of the history of philosophy and the technical approaches favoured by contemporary philosophers The Bloomsbury Companion to Metaphysics introduces the key ideas and debates needed to understand analytic metaphysics Presenting an effective syllabus for an introductory course in contemporary metaphysics this companion brings together a team of leading metaphysicians It begins with a comprehensive introduction to methodological problems and methods before tackling the perennial metaphysical questions surrounding core topics such as Modality Universals and Abstract Objects Naturalism and Physicalism Mind Free Will God **An Introduction to Metaphysics** C. H. Whiteley, 2019-03-06 Originally published in 1950 For those interested in the fundamental problems of philosophy but not familiar with its technicalities this book introduces the main type of theory in metaphysics not by a catalogue of philosophers opinions but by a continuous train of reasoning The central theme is the problem of the relation between Mind and Matter and in the course of the argument there are discussions of mechanistic materialism of idealism and our knowledge of the external world and of the arguments for the existence of God The problems are presented lucidly but without over simplification **An Introduction to Metaphysics** Henri Bergson, 1970 *God, Humanity, and the Universe* Alexei V. Nesteruk, 2023-10-27 The main objective of

this book on cosmology and theology is to reassess the current approach to research in the field of interaction mediation and dialogue between modern cosmology and Christian theology Eastern Orthodox theology in particular This project was part of wide ranging cross disciplinary research undertaken by scientists philosophers and theologians across the world within the framework of Science Orthodoxy around the World run by the National Hellenic Research Foundation Athens from 2019 to 2023 The project and this publication contribute to the large scale academic activity in the field of science and religion or science and theology with a particular accent on the contribution of Eastern Orthodox theology to this dialogue as well as to the venues of advancement of this theology given the recent breakthroughs in cosmology physics and philosophy The book also underlines the importance of expressing cosmological ideas theologically symbolically and scientifically in the wide context of culture and humanity s sociopolitical and environmental predicaments *The Philosophical Review* Jacob Gould Schurman,James Edwin Creighton, Frank Thilly, Gustavus Watts Cunningham, 2011 An international journal of general philosophy
