Back Stages Shannon Jackson, 2022-06-15 Shannon Jackson explores a range of disciplinary institutional and political puzzles that engage the social and aesthetic practice of performance in this collection of twenty essential essays spanning her career Back Stages starts by considering the historical connection between performance practice and movements of social reform while later writings analyze disciplinary debates on the place of performance in higher education and within the contemporary field of socially engaged art tracking fraught

and allied relationships to literary studies art history visual culture theater social theory and critical theory At a time of increased aesthetic experimentation and political debate within the art world these essays alight on artists groups and cultural organizations whose experiments have challenged conventions of curation and critique including Theaster Gates Paul Ram rez Jonas Harrell Fletcher and My Barbarian Throughout Jackson navigates the political ambivalences of performance from the late nineteenth to the twenty first century tracking shifts in participatory art that seek to resist capitalism even as such performance work paradoxically risks neoliberal appropriation by a post Fordist experience economy Back Stages surfaces unexpected cross disciplinary connections and provides new opportunities for mutual engagement within a wide network of educational artistic and civic sectors A substantial introduction excavates the critical links between the essays and a variety of disciplines and movements *Rereading Post-Partum Document* Mary Kelly,1999 Proximate Difference in Aesthetics K. Malcolm Richards,2023-09-12 Proximate Difference in Aesthetics Jacques Derrida and Institutional Critique examines interconnections between the texts of Jacques Derrida and works related to Institutional Critique in art At a juncture between philosophy and art texts by Derrida such as *Diff rance* *Parergon* *Economimesis* and *Force of Law* and works by Marcel Broodthaers Michael Asher Mierle Laderman Ukeles Fred Wilson Louise Lawler Andrea Fraser Maria Eichhorn and Cameron Rowland reveal shared investments in questions around the archive the institutional frames for art and the collision of aesthetics economics and the law These juxtapositions lead to insights not only into the relevance of Derrida s work to contemporary aesthetics but also into how the approaches of Institutional Critique offer a way of thinking through issues raised by Derrida s texts In being against traditional aesthetics Derrida and the artists under consideration brush up against the foundational premises of the institutions of philosophy aesthetics and art creating productive frictions that expose not only the foundational fictions and premises of their respective fields but also an alternative means of approaching philosophy art and aesthetics The small differences that Derrida and these artists open up through their practice radically reframe ways of thinking about their respective institutions fields and traditions *Andrea Fraser* ,1984 Post-Partum Document Mary Kelly,1999 Mary Kelly s *Post Partum Document* one of this century s most significant and influential artistic statements on identity represents the ultimate merging of feminism and minimalist performativity It is an extraordinary work that is viscerally experienced rather than statically received Maurice Berger *New School for Social Research* **Arte y performance** Pedro Alberto Cruz Sánchez ,2022-03-30 La presente obra constituye el primer esfuerzo riguroso y omniabarcador por desarrollar un relato hist rico de la performance desde las experiencias que salpicaron las vanguardias hasta las formulaciones m s contempor neas En primer lugar se ofrece un amplio an lisis sobre la presencia que las estrategias performativas tuvieron en las vanguardias hist ricas Identifica despu s aquellas rupturas que se produjeron en el seno de la modernidad tras la Segunda Guerra Mundial y que condujeron a la eclosi n de movimientos tan decisivos como el happening y el Fluxus Aborda a continuaci n el surgimiento y desarrollo de la performance posmoderna

fruto del descentramiento del sujeto y finalmente analiza la reformulación de los lenguajes performativos en el actual contexto de la globalización. En estas páginas el autor analiza con maestría el zigzagueante itinerario trazado por las llamadas artes vivas también desde un punto de vista poscolonial traza un amplio arco que desborda las estrechas concepciones privativas de Occidente que han ahormado con frecuencia las narrativas de la performance y se adentra en la intensa y prolija praxis artística desarrollada en territorios tradicionalmente considerados como periféricos: Latinoamérica, China, India, Corea del Sur o Sudáfrica. Además, habida cuenta de que la performance constituye por definición un lenguaje fronterizo expuesto continuamente a procesos de contaminación e hibridación, las cuestiones examinadas en este estudio invaden asimismo campos anejos como la danza o el teatro.

Modernologies Sabine Breitwieser, 2009. It is evident that modernity is a popular mountain for analysis and reflection of a largely controversial nature. Numerous theories have also been written about the beginning as well as the end of modernity. The aim of *Modernologies* is to achieve an account of the state of artistic research and to discuss selected contributions to the subject matter that appears central after two to three decades of an ever intensely blazing conflict over the legacy of modernity and modernism.
