All Around The Year Holidays And Celebrations In American Life

Keith A. Mayes

All Around The Year Holidays And Celebrations In American Life:

All Around the Year Jack Santino, 1995 Whether they're decorating Easter trees or celebrating Wagner's birthday by playing recordings of his Ring cycle operas and incinerating a model of Valhalla on an outdoor barbecue to the closing strains of Gotterdammerung Americans know both how to create and how to celebrate holidays Jack Santino's guide to such frivolity is a wonderfully readable exploration of holidays periods of festivity and life cycle rituals and celebrations Santino draws on history anthropology popular culture and folklore to show the intricate relationships between holidays and the roles that celebrations and rituals play in people's lives

New Old-fashioned Ways Jack Santino, 1996 Every year as each holiday rolls around American popular culture is suddenly awash in images associated with that festivity While Christmas has been the most obviously commercialized celebration Halloween Easter the Fourth of July Hanukkah Thanksgiving and Valentine's Day are also reflected in the offerings of the mass media and consumer products industries This book is the first in depth investigation of the myriad ways in which traditional holidays are both manifested and exploited in a commercial consumerist society Jack Santino's analysis encompasses everything from movies to romance novels from television shows to comic books One especially fascinating feature of this study is its examination of the packaged foods industry and the manner in which soft drinks beer snack cakes cookies candy and breakfast cereals are regularly repackaged to reflect particular holidays In what becomes a central theme of the book Santino shows how holidays give companies the opportunity to create an illusion of novelty for products that otherwise remain unchanged over time For example the holiday Chips Ahoy cookies or Halloween Oreos differ only in their appearance from the everyday products but they assume a quality of uniqueness through their association with a special time of the year Throughout the book Santino examines the logic by which commercial culture and holidays are linked Halloween for instance with its traditional symbolism of death evil and monsters has served as a theme for heavy metal music and slasher films This in turn has led to some interesting transmutations as one text borrows from another in the wake of a commercial success When John Carpenter's pioneering 1978 slasher film Halloween became a box office hit it was perhaps inevitable that other holiday based slasher films New Year's Evil April Fool's Day and Silent Night Deadly Night would follow Copiously illustrated New Old Fashioned Ways is at once entertaining and informative a treat for general readers as well as an important work for scholars in a variety of fields including communications folklore anthropology sociology and business

perspectives on international research in the field Out of Turmoil Dean P. Vesperman, Anne Aydinian-Perry, Matthew T. Missias, Whitney G. Blankenship, 2023-01-01 It is not difficult to argue that the social sciences are in a period of transition Our day to day lives have been marked by uncertainty as our social lives have vacillated wildly between highs and lows tensions between fellow citizens have heightened along ideological fault lines and educators have been placed squarely at the center of public discourses about what and how we should be teaching By any measure we are living in a time where every moment seems to be rife with high stakes realities that must be navigated Ladson Billings 2020 called on educators to reimagine education and contest the notion of a return to normal In the current highly polarized context where we see multiple competing narratives rather than promoting a return to normal or business as usual approach we argue that educators must use the lessons of the last two years as well as draw on what we have learned from history and the social sciences By asking ourselves how we might interrogate and inform current social landscapes and the challenges that arise from them we have the opportunity to take leadership in fostering innovation building solidarity and re imagining the teaching and learning of history and the social sciences We recognize that humans live in multiple complex communities that include intersectional identities relationships with power agency and discourses and lived realities that are as unique as they are divergent Consequently the task of educators and the goal of this volume is to provide a clarion voice to a dynamic relational and undeniably human social world **Pole Raising and Speech Making** Jennifer Eastman Attebery, 2015-11-01 In Pole Raising and Speech Making author Jennifer Eastman Attebery focuses on the beginnings of the traditional Scandinavian Midsummer celebration and the surrounding spring to summer seasonal festivities in the Rocky Mountain West during the height of Swedish immigration to the area 1880 1917 Combining research in folkloristics and history Attebery explores various ways that immigrants blended traditional Swedish Midsummer related celebrations with local civic celebrations of American Independence Day on July 4 and the Mormons Pioneer Day on July 24 Functioning as multimodal observances with multiple meanings these holidays represent and reconsider ethnicity and panethnicity sacred and secular relationships and the rural and the urban demonstrating how flexible and complex traditional celebrations can be Providing a wealth of detail and information surrounding little studied celebrations and valuable archival and published primary sources diaries letters speeches newspaper reports and images Pole Raising and Speech Making is proof that non English immigrant culture must be included when discussing American culture It will be of interest to scholars and graduate students in ethnic studies folklore ritual and festival studies and Scandinavian American cultural history **The Saturated World** Beverly Gordon, 2006 Explores the way middle class American women in the late nineteenth and early twentieth centuries added meaning to their lives through their domestic amusements leisure pursuits that took place in and were largely focused on the home Women elaborated on their everyday tasks and responsibilities with these amusements thus cultivating a heightened aesthetically charged saturated state and created self contained enchanted worlds
