Beyond Liberal Democracy Political Thinking For An East Asian Context:

Beyond Liberal Democracy Daniel A. Bell, 2009-01-10 Is liberal democracy appropriate for East Asia In this provocative book Daniel Bell argues for morally legitimate alternatives to Western style liberal democracy in the region Beyond Liberal Democracy which continues the author's influential earlier work is divided into three parts that correspond to the three main hallmarks of liberal democracy human rights democracy and capitalism These features have been modified substantially during their transmission to East Asian societies that have been shaped by nonliberal practices and values Bell points to the dangers of implementing Western style models and proposes alternative justifications and practices that may be more appropriate for East Asian societies If human rights democracy and capitalism are to take root and produce beneficial outcomes in East Asia Bell argues they must be adjusted to contemporary East Asian political and economic realities and to the values of nonliberal East Asian political traditions such as Confucianism and Legalism Local knowledge is therefore essential for realistic and morally informed contributions to debates on political reform in the region as well as for mutual learning and enrichment of political theories Beyond Liberal Democracy is indispensable reading for students and scholars of political theory Asian studies and human rights as well as anyone concerned about China's political and economic future and how Western governments and organizations should engage with China

Cosmopolitan Political Thought Farah Godrej, 2011-08-01 *Cosmopolitan Political Thought* asks the question of what it might mean for the very practices of political theorizing to be cosmopolitan It suggests that such a vision of political theory is intimately linked to methodological questions about what is commonly called comparative political theory namely the turn beyond ideas and modes of inquiry determined

by traditional Western scholarship It is therefore an argument for applying the idea of cosmopolitanism understood in a particular way to the discipline of political theory itself As Farah Godrej argues there are four crucial components of this cosmopolitan intervention the texts under analysis the methods for interpreting non Western texts and ideas the application of these ideas across geographical and cultural boundaries and the deconstruction of Eurocentrism In order to be genuinely cosmopolitan Godrej states political theorists must reflect on their perspectives inside and outside various traditions and immerse themselves in foreign ideas languages histories and cultures ultimately relocating themselves within their disciplinary homes The result will be a serious challenge to accepted solutions to political life The order of the world in house and state Wolf Rainer Wendt, 2022-09-28 In the world the home and the state prove themselves and change as basic institutions of human coexistence They are the subject of a comparative study on an ecotheoretical basis In the global context the modes of social control have developed differently in the home and the state In and with them order is created in the world and for the individual and collective conduct of life The institutional frameworks of house and state in the world are ways of shaping existence that are juxtaposed in their European Occidental and East Asian forms Their discussion takes place along the ancient Greek basic concepts and forms of thought of the oikos the polis and the cosmos on the one hand and the ancient Chinese categories jia guo and tianxia on the other They are discussed with their ethical political and economic references in their traditional and contemporary meaning and with regard to their ecological sustainability The interest in a discursive understanding of sustainable life serving orders in the face of global challenges is the guiding principle **Public Reason Confucianism** Sungmoon Kim, 2016-04-21 Public reason Confucianism is a particular style of Confucian democratic perfectionism in which comprehensive Confucianism is connected with perfectionism **Citizen Support for Democratic and Autocratic Regimes** Marlene Mauk, 2020-04-30 Citizen Support for Democratic and Autocratic Regimes takes a political culture perspective on the struggle between democracy and autocracy by examining how these regimes fare in the eyes of their citizens Taking a globally comparative approach it studies both the levels as well as the individual and system level sources of political support in democracies and autocracies worldwide The book develops an explanatory model of regime support which includes both individual and system level determinants and specifies not only the general causal mechanisms and pathways through which these determinants affect regime support but also spells out how these effects might vary between the two types of regimes It empirically tests its propositions using multi level structural equation modeling and a comprehensive dataset that combines recent public opinion data from six cross national survey projects with aggregate data from various sources for more than 100 democracies and autocracies It finds that both the levels and individual level sources of regime support are the same in democracies and autocracies but that the way in which system level context factors affect regime support differs between the two types of regimes The results enhance our understanding of what determines citizen support for fundamentally different regimes help assessing the present and future stability of

democracies and autocracies and provide clear policy implications to those interested in strengthening support for democracy and or fostering democratic change in autocracies Comparative Politics is a series for researchers teachers and students of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.ecprnet.eu The series is edited by Susan Scarrow Chair of the Department of Political Science University of Houston and Jonathan Slapin Professor Department of Political Science University of Zurich *Confucianism and Democratization in East Asia* To-ch'öl Sin, 2012 This book examines how Confucianism affects the development of democratic citizenship in East Asia To what extent do East Asians remain attached to the particular way of life and system of government that Confucius and Mencius advocated to bring about a community of grand harmony How does such attachment to Confucian civic norms affect their engagement in civic affairs How does attachment to Confucian paternalistic meritocracy affect their commitment to democracy The book addresses these question in the context of public opinion surveys conducted in East Asia and other regions Provided by publisher

Confucian Constitutionalism in East Asia Bui Ngoc Son, 2016-02-12 Western liberal constitutionalism has expanded recently with in East Asia the constitutional systems of Japan South Korea and Taiwan based on Western principles and with even the socialist polities of China and Vietnam having some regard to such principles Despite the alleged universal applicability of Western constitutionalism however the success of any constitutional system depends in part on the cultural values customs and traditions of the country into which the constitutional system is planted This book explains how the values customs and traditions of East Asian countries are Confucian and discusses how this is relevant to constitutional practice in the region The book outlines how constitutionalism has developed in East Asia over a long period considers different scholarly work on the ease or difficulty of integrating Western constitutionalism into countries with a Confucian outlook and examines the prospects for such integration going forward Throughout the book covers detailed aspects of Confucianism and the workings of constitutions in practice *Routledge Handbook of Korean Politics and Public Administration* Chung-in Moon, M.
